## 1.0 Brief Introduction

ReWear Fashion System is a web-based platform designed for buying and selling second-hand fashion items. It supports three user roles which are Admin, Staff, and Customer, each with different access levels. Development of the system was completed in July 2025, with future improvements expected as the platform evolves alongside advancements in information technology, web development, and AI integration.

This system is the result of a collaborative effort by a development team consisting of five members from the Enterprise Programming group and one additional member from the Software Engineering team. The combined team operates under the name QuadraTech and HexaTech, representing a joint initiative between both groups.

## 2.0 Final Database Design

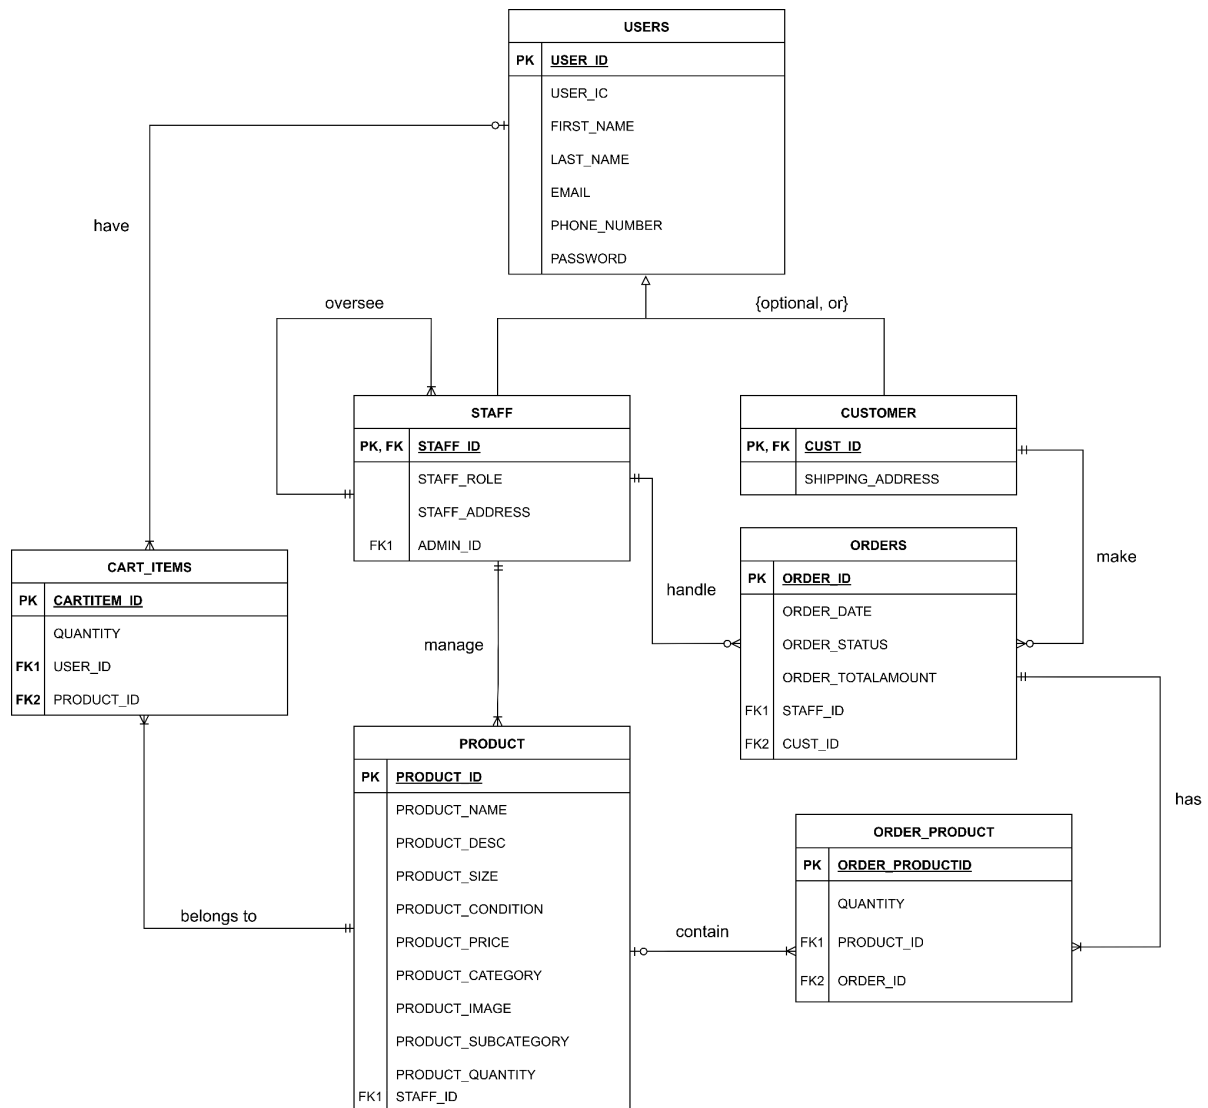

Figure 2.0: Entity Relationship Diagram (ERD) of ReWear Fashion System

Entity Relationship Diagram (ERD) contains 7 tables or entities including the implementation of inheritance and recursive concepts. The tables are Users, Staff, Cart\_Items, Customer, Product, Orders, and Order\_Product. The Users table is the parent of the Staff and Customer tables. In addition, the recursive concept has been used in the Staff table, where entities in the Users table have relationships with other instances of the same entity. This situation implies when the admin who is also a store employee will manage other employees. The cardinality that exist within the tables are:

- Staff and Staff (Recursive)
  - One Admin can manage many staff: An admin has the ability to oversee and manage multiple staff members.
  - One staff can be managed by exactly one admin: Each staff member has a designated admin responsible for them.
- Staff and Orders
  - One staff can handle 0 to many orders: A staff member may handle several orders or no orders.
  - One order must be handled by one staff: Each order will be automatically assigned to a staff member when they update the order status.
- Staff and Product
  - One staff can manage many products: A staff member can oversee and manage such as add or modify multiple products on the platform.
  - One product must be managed by at least one staff member: no product exists without a staff member being responsible to add it into the system.
- Cart\_Items and Product
  - One user can have many 0 to many cart items.
  - Each cart item belongs to one user.
- Customer and Orders
  - One customer can make 0 to many orders: A customer may make multiple orders, or none at all.

- One order must be associated with one customer: Every order must be linked to a specific customer.
- Orders and Product (Via Order\_Product as a bridge table)
  - One product can be contained in many orders: A single product can appear in multiple orders.
  - One order can contain many products: An order can include multiple products.

## 2.1 USERS

Table 2.1 (a): Users table

| Attribute    | Key Constraints | Description                  | Type        |
|--------------|-----------------|------------------------------|-------------|
| USER_ID      | PK              | Unique identifier for user   | VARCHAR(20) |
| USER_IC      |                 | User's identification number | VARCHAR(15) |
| FIRST_NAME   |                 | User's first name            | VARCHAR(50) |
| LAST_NAME    |                 | User's last name             | VARCHAR(50) |
| EMAIL        |                 | User's valid email address   | VARCHAR(50) |
| PHONE_NUMBER |                 | User's phone number          | VARCHAR(20) |
| PASSWORD     |                 | User's password              | VARCHAR(50) |

Description: Stores common account information shared by both customers and staff.

## 2.2 STAFF

Table 2.2 (a): Staff table

| Attribute     | Key Constraints | Description                              | Type         |
|---------------|-----------------|------------------------------------------|--------------|
| STAFF_ID      | PK, FK          | Unique staff ID (inherited from USER_ID) | VARCHAR(20)  |
| STAFF_ROLE    |                 | Role of staff (e.g., Admin, or Staff)    | VARCHAR(20)  |
| STAFF_ADDRESS |                 | Staff's home address                     | VARCHAR(100) |

|          |    |                                        |             |
|----------|----|----------------------------------------|-------------|
| ADMIN_ID | FK | Refers to admin who manages this staff | VARCHAR(20) |
|----------|----|----------------------------------------|-------------|

Description: Subtype of entity User, represents employees who manage products and handle orders. Recursive relationships also exist within the entity Staff to indicate a staff member (admin) supervises other staff.

## 2.3 CUSTOMER

Table 2.3 (a): Customer table

| Attribute        | Key Constraints | Description                              | Type         |
|------------------|-----------------|------------------------------------------|--------------|
| CUST_ID          | PK, FK          | Unique customer ID (inherited from USER) | VARCHAR(20)  |
| SHIPPING_ADDRESS |                 | Customer's delivery address              | VARCHAR(100) |

Description: Subtype of entity User, represents buyers who place orders on the platform.

## 2.4 ORDERS

Table 2.4 (a): Orders table

| Attribute         | Key Constraints | Description                                                                    | Type         |
|-------------------|-----------------|--------------------------------------------------------------------------------|--------------|
| ORDER_ID          | PK              | Unique order ID                                                                | VARCHAR(20)  |
| ORDER_DATE        |                 | Date of the order made                                                         | DATE         |
| ORDER_STATUS      |                 | Current status of the order (e.g.,Preparing, Shipping, Received, or Cancelled) | VARCHAR(20)  |
| ORDER_TOTALAMOUNT |                 | Total amount of the order                                                      | NUMBER(10,2) |
| STAFF_ID          | FK              | Staff who handles the order by updating the status of the order                | VARCHAR(20)  |
| CUST_ID           | FK              | Customer who made the order                                                    | VARCHAR(20)  |

Description: Stores details of purchases made by customers.

## 2.5 PRODUCT

Table 2.5 (a): Product table

| Attribute           | Key Constraints | Description                                                                                            | Type         |
|---------------------|-----------------|--------------------------------------------------------------------------------------------------------|--------------|
| PRODUCT_ID          | PK              | Unique identifier for product                                                                          | VARCHAR(20)  |
| PRODUCT_NAME        |                 | Name of the product                                                                                    | VARCHAR(100) |
| PRODUCT_DESC        |                 | Description of the product                                                                             | VARCHAR(200) |
| PRODUCT_CATEGORY    |                 | Category of the product (e.g., Women Clothing, Men Clothing, Unisex Clothing, Shoes, Accessories etc.) | VARCHAR(50)  |
| PRODUCT_SUBCATEGORY |                 | Subcategory of the product (e.g., Dress, Top, Formal Pants etc.)                                       | VARCHAR(50)  |
| PRODUCT_SIZE        |                 | Size of the product                                                                                    | VARCHAR(20)  |
| PRODUCT_CONDITION   |                 | Condition (e.g., Like New, Excellent Used Condition, Fair Condition etc.)                              | VARCHAR(30)  |
| PRODUCT_PRICE       |                 | Price of the product                                                                                   | NUMBER(10,2) |
| PRODUCT_PICTURE     |                 | Picture of the product                                                                                 | VARCHAR(100) |
| PRODUCT_QUANTITY    |                 | Quantity of the product                                                                                | INT(11)      |
| STAFF_ID            | FK              | Staff who manages the product in the listing                                                           | VARCHAR(20)  |

Description: Store information about the preloved product available for sale.

## 2.6 CART\_ITEMS

Table 2.6 (a): Cart\_Items table

| Attribute   | Key Constraints | Description                                     | Type        |
|-------------|-----------------|-------------------------------------------------|-------------|
| CARTITEM_ID | PK              | Unique identifier for the cart item             | VARCHAR(10) |
| USER_ID     | FK              | Refers to the user in the orders                | VARCHAR(50) |
| PRODUCT_ID  | FK              | Refers to the product                           | VARCHAR(50) |
| QUANTITY    |                 | Quantity of the specific item added to the cart | INT(11)     |

Description: Store information about the items added by the valid customer to the cart.

## 2.7 ORDER\_PRODUCT

Table 2.7 (a): Order\_Product table

| Attribute     | Key Constraints | Description                                           | Type        |
|---------------|-----------------|-------------------------------------------------------|-------------|
| ORDER_PRODUCT | PK              | Unique identifier for the record                      | VARCHAR(20) |
| QUANTITY      |                 | Quantity of the specific item ordered by the customer | VARCHAR(10) |
| PRODUCT_ID    | FK              | Refers to the product in the order                    | VARCHAR(20) |
| ORDER_ID      | FK              | Refers to the order that contains product             | VARCHAR(20) |

Description: Bridge table that links orders and products to supports many-to-many relationship between orders and products.

### 3.0 MVC Framework Design

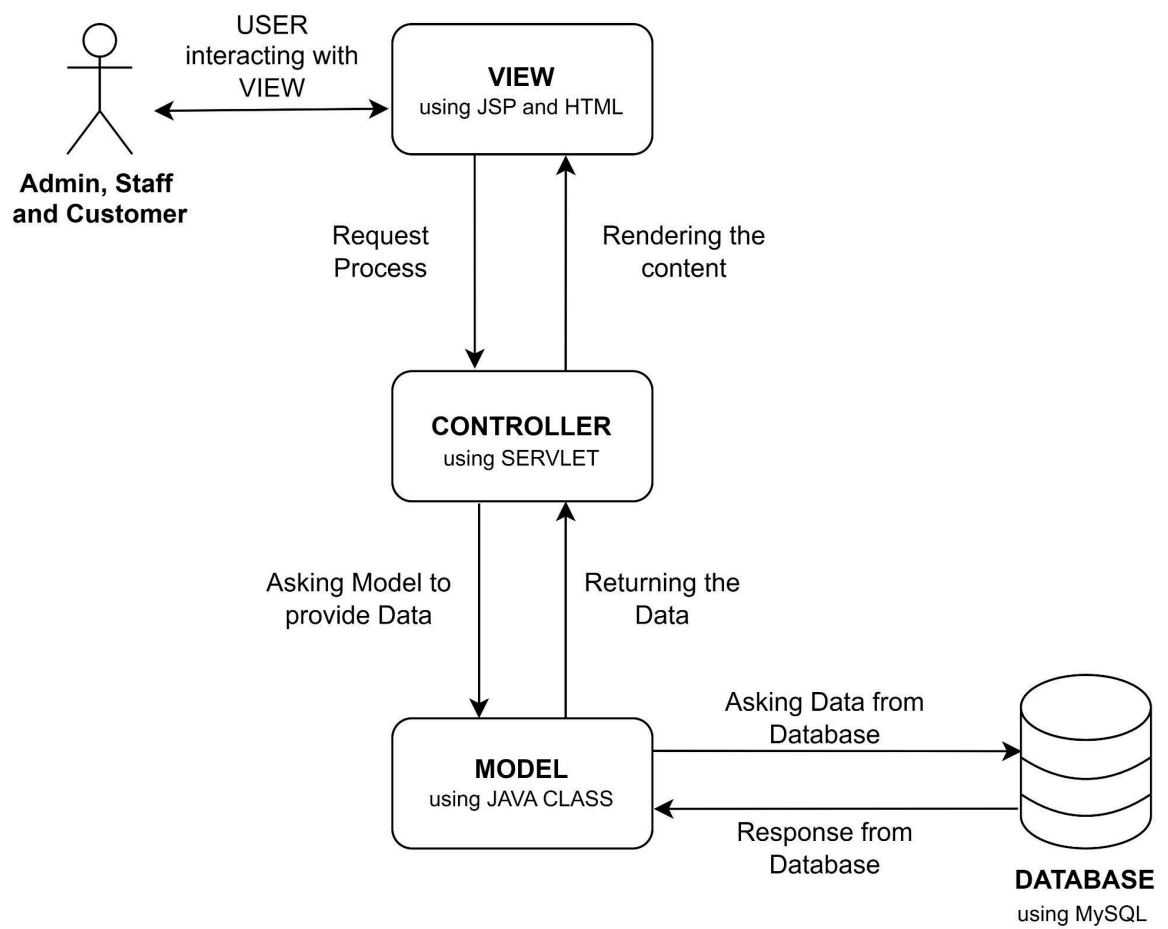

Figure 3.0: MVC Framework Design of ReWear Fashion System

# USER MANUAL

## REWEAR FASHION SYSTEM

### 4.0 User Manual

#### 1.0 Basic User Guide

##### 1.1 Dashboard Overview

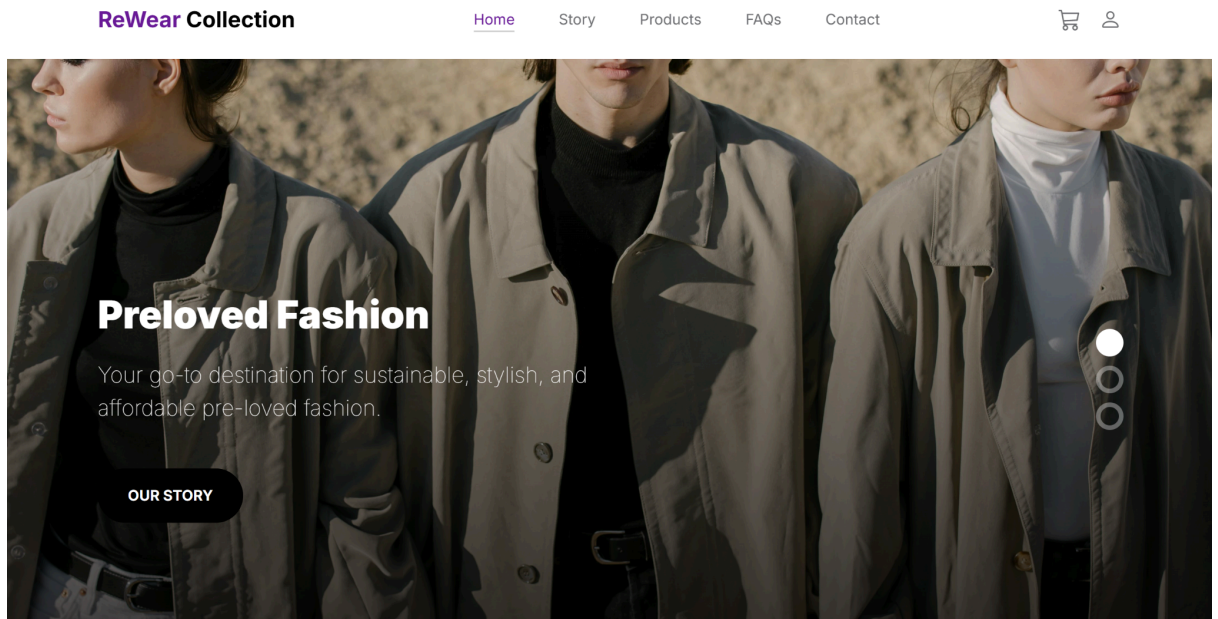

Figure 1.1 (a): Dashboard Overview of Public Guest

**Description:** Default homepage for the public guest.

## 1.2 Login

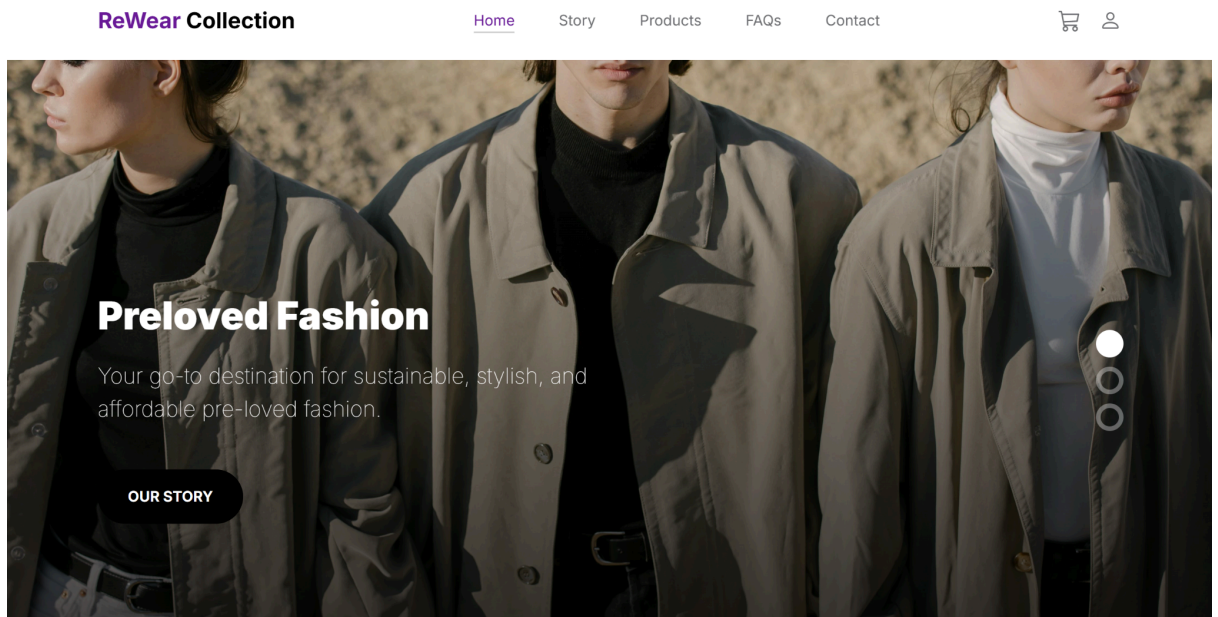

Figure 1.2 (a): Dashboard Overview of Public Guest

**Description:** Click on the “Person” icon on top of the navigation bar.

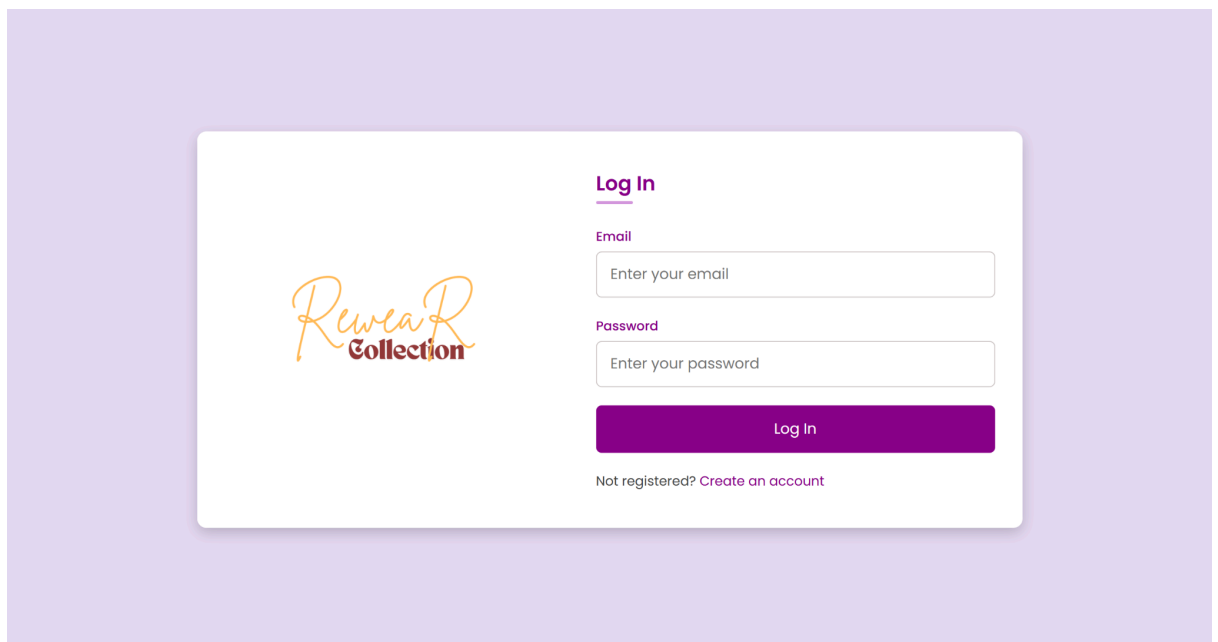

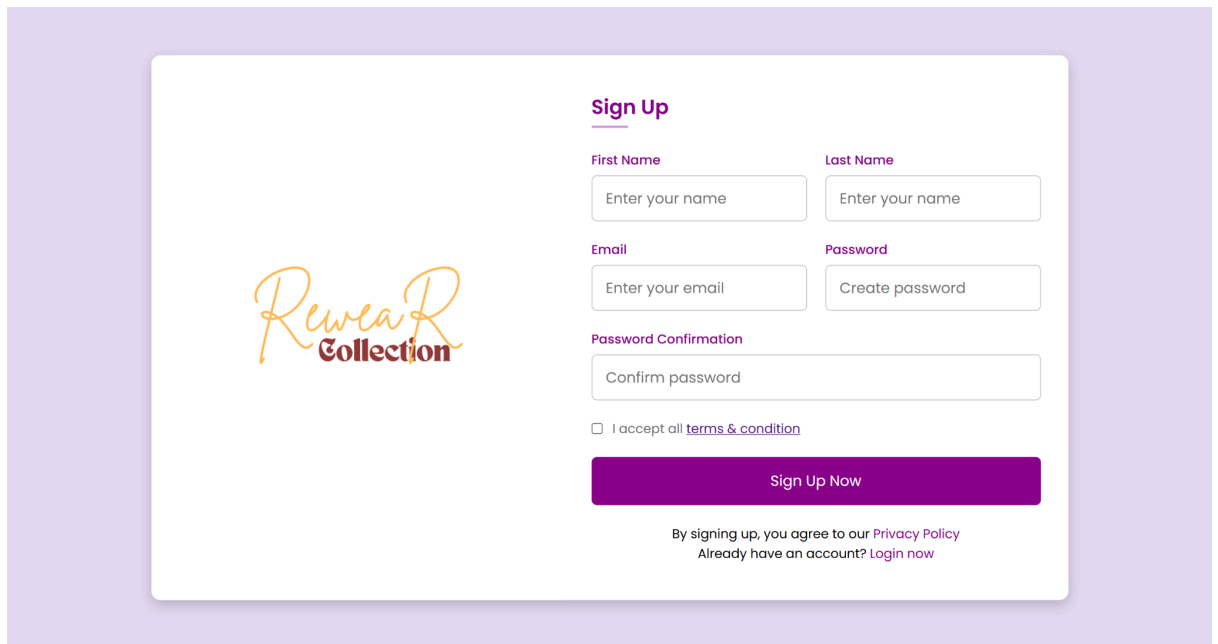

Figure 1.2 (b): Login Interface

**Description:** Enter registered email and password on the Login page, and click the “Log In” button. New users can register as a new customer by clicking on the “Create an account”.

### 1.3 Register

The image shows a user registration form titled "Sign Up" for "RewearR Collection". The form is set against a light purple background. On the left side of the form is the "RewearR Collection" logo, where "RewearR" is in a stylized orange script and "Collection" is in a bold, dark orange sans-serif font. The registration fields are on the right: "First Name" and "Last Name" (both with placeholder text "Enter your name"), "Email" (placeholder "Enter your email"), "Password" (placeholder "Create password"), and "Password Confirmation" (placeholder "Confirm password"). Below these fields is a checkbox labeled "I accept all [terms & condition](#)". A prominent purple button labeled "Sign Up Now" is positioned below the checkbox. At the bottom of the form, there is a line of text: "By signing up, you agree to our [Privacy Policy](#)" followed by "Already have an account? [Login now](#)".

Figure 1.3 (a): User registration Interface

**Description:** Fill in required fields such as first and last name, email (must be valid with @ symbol), and password (minimum 8 characters). Submit the form by clicking on the “Sign Up Now” button to create an account. Upon successful registration, the user may proceed to log in by clicking on the “Login Now” text.

**Note:** Users may read the terms and conditions, and privacy policy before registering as a valid user in the system. It is mandatory to tick on the checkbox available to accept the terms and conditions before registering.

## 1.4 User Session

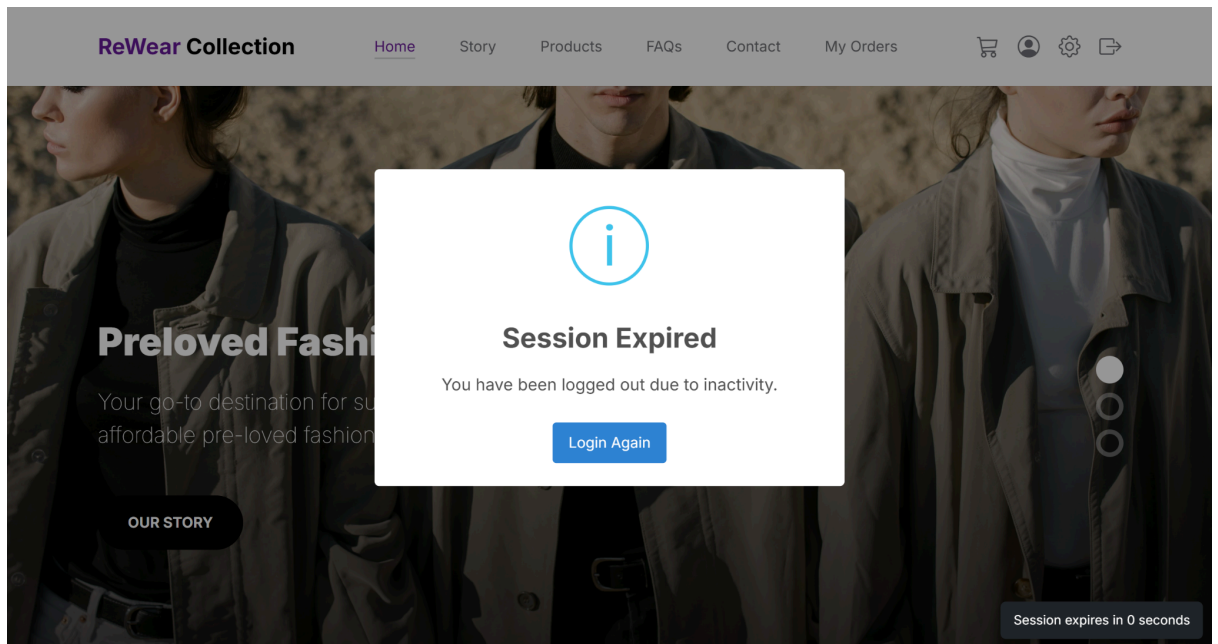

Figure 1.4 (a): Session Management

**Description:** After logging in, a session is created to keep the user authenticated. By default, the user session will be active if there is an interaction between the user and the website. If there is no interaction within 15 minutes, the user will be automatically logged out. Users may login again to the website.

## 2.0 Admin Guide

### 2.1 Dashboard Overview

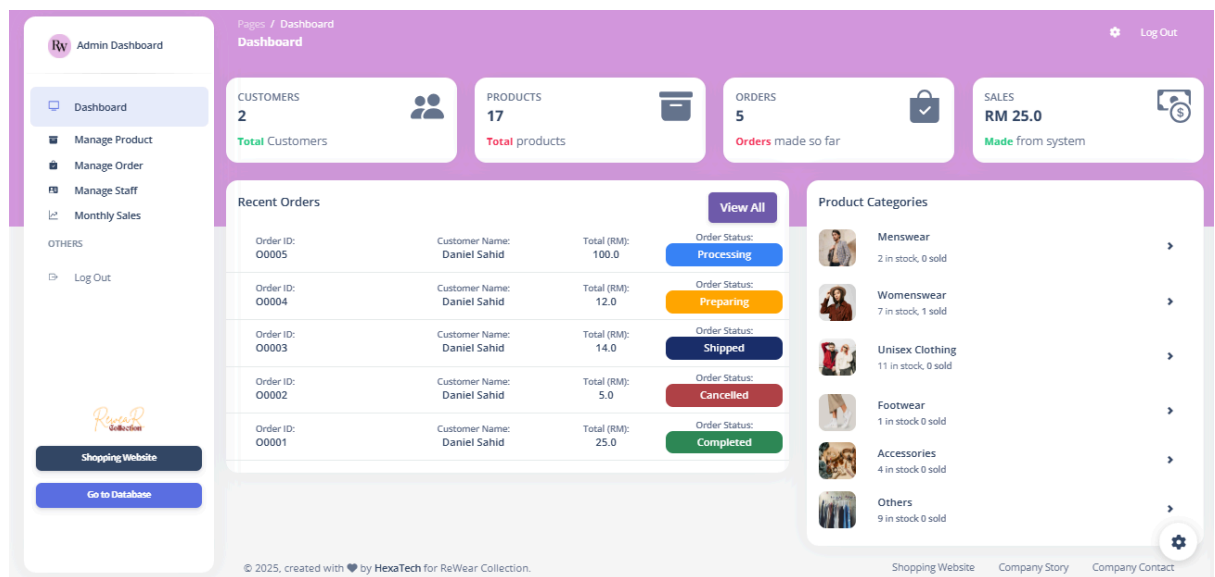

Figure 2.1 (a): Dashboard Overview of Admin

**Description:** After logging in, admin are directed to the dashboard, which displays a summary of system activities including total customers, total products, total orders, and many more.

### 2.2 Browse Item by Category

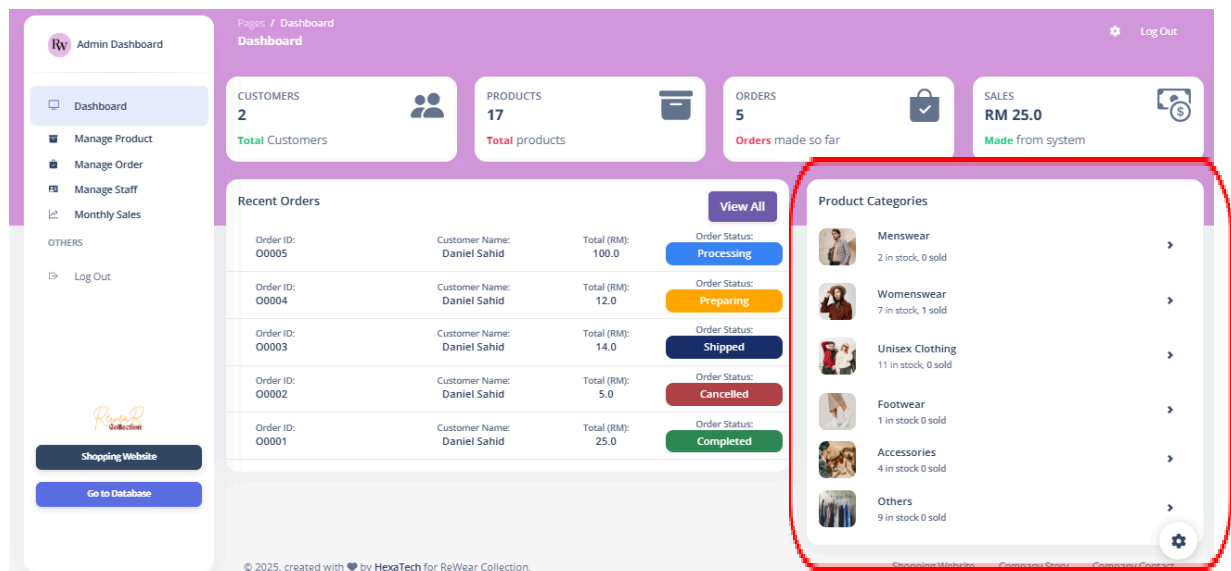

Figure 2.2 (a): Product Categories section

**Description:** To browse products by the category, admin can click on all categories available under the “Product Categories” in the dashboard interface.

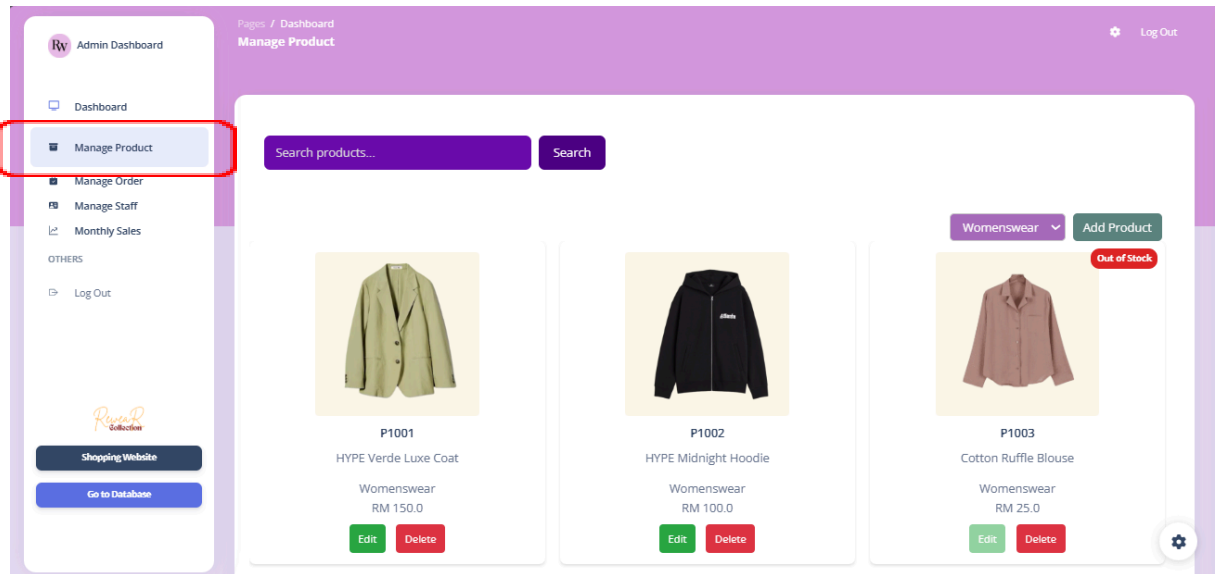

Figure 2.2 (b): Manage Product Section in Sidebar Navigation

**Additional Option:** The admin may optionally access the “Manage Product” section from the sidebar navigation menu to view all of the products available in the system.

## 2.3 Search Product

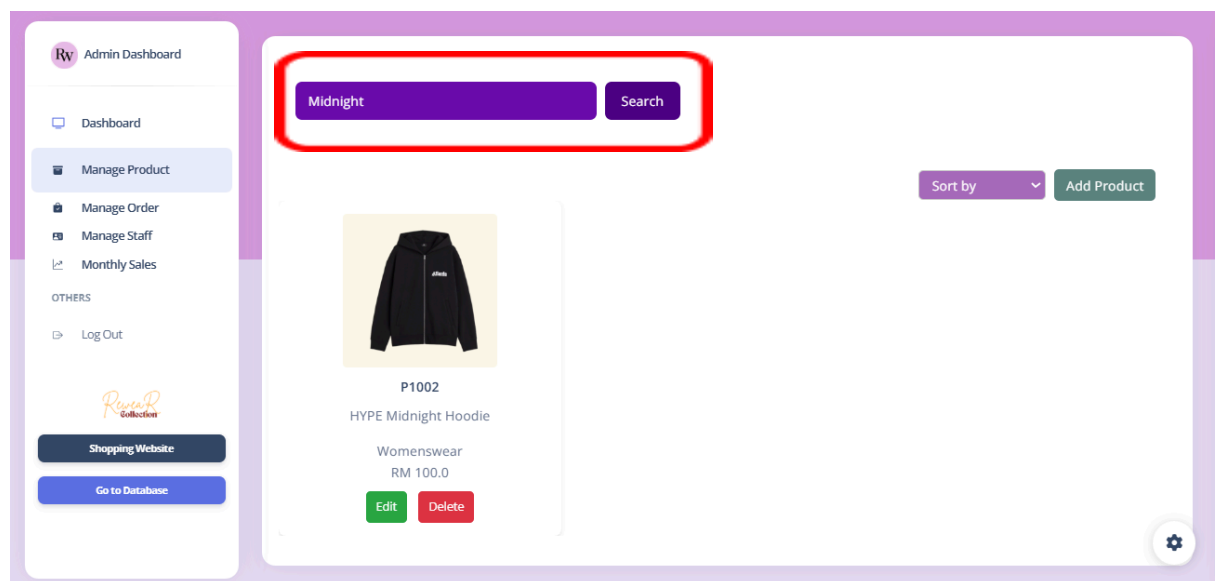

Figure 2.3 (a): Search Product Page by Keyword — Product Name

**Description:** Admin can search for specific items by entering keywords (e.g., product name, brand, or type) into the search bar located at the top of the page. Once entered, relevant results will be displayed based on the keyword match.

## 2.4 Filter Product by Category

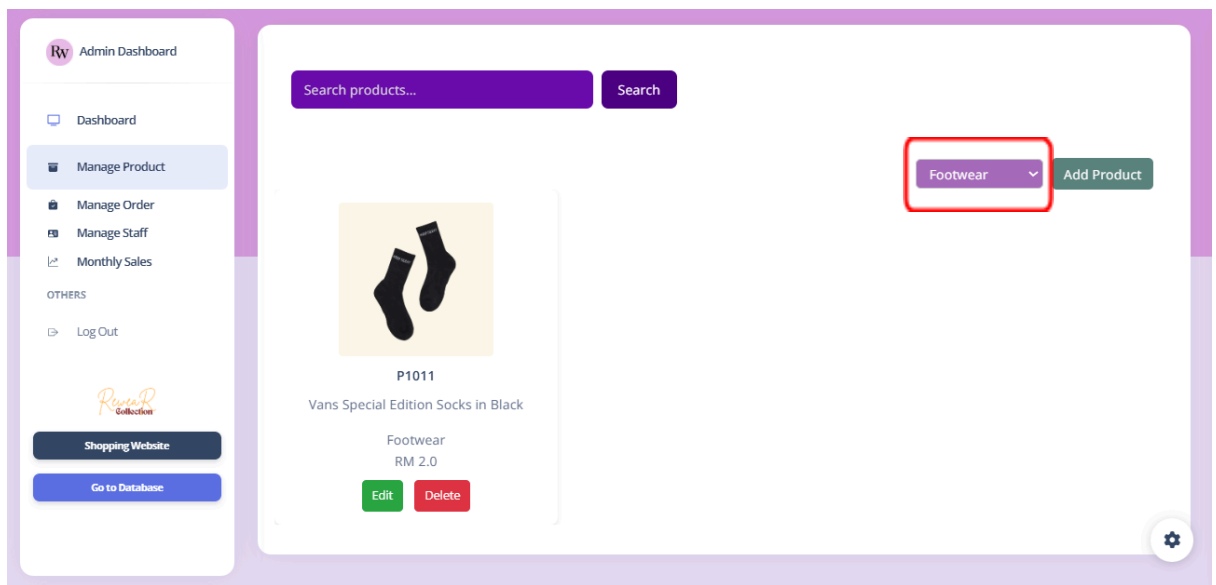

Figure 2.4 (a): Filter Product by Category — Footwear

**Description:** Admin can filter down the product list by selecting a specific category, such as Womenswear, Menswear, Footwear, and others.

## 2.5 View Product Detail

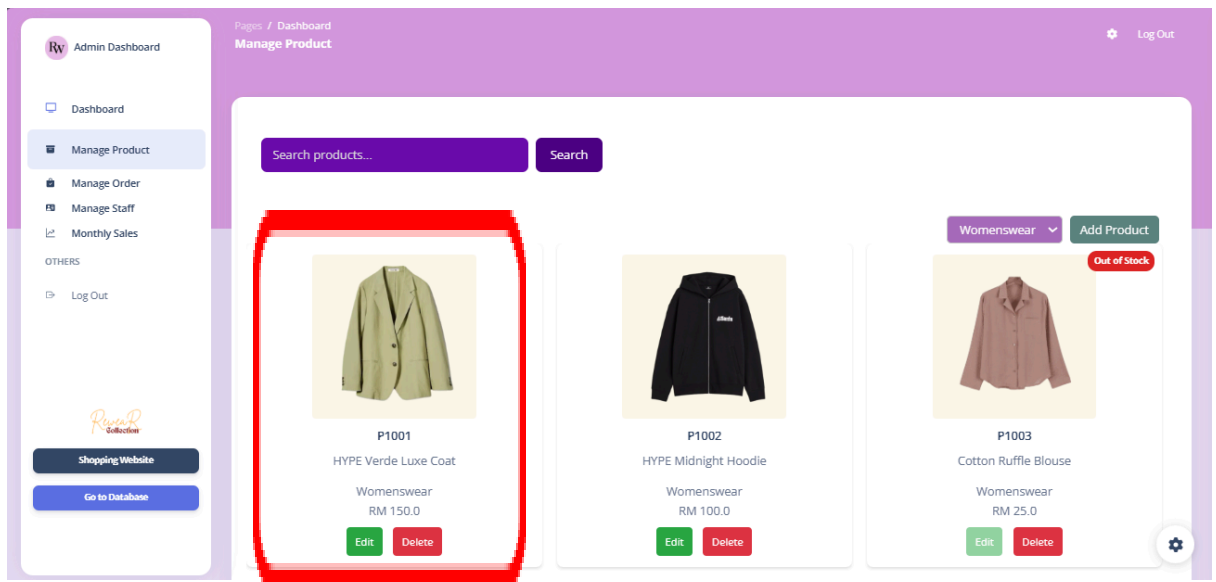

Figure 2.5 (a): Manage Product Page

**Description:** Click on the picture of the product to view more detail. Products that are out of stock also can be clicked.

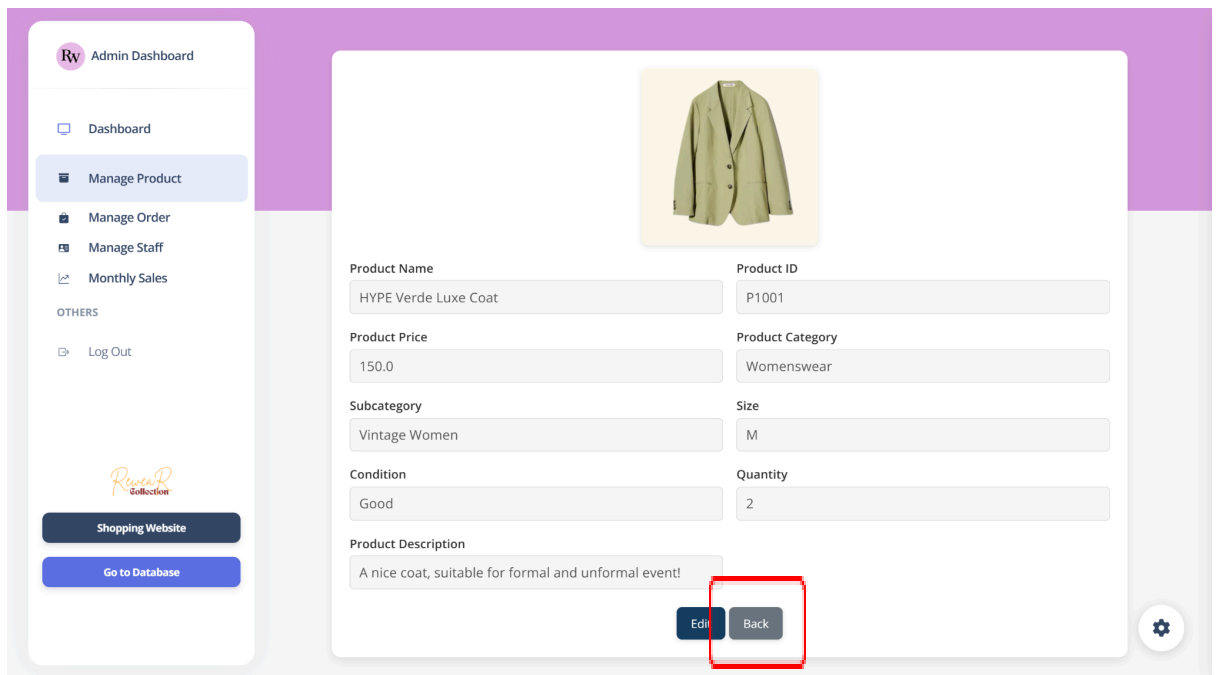

Figure 2.5 (b): Product Detail Page

**Description:** All of the information about the product will be displayed correctly. Click on the “Back” button to be redirected to the previous page.

## 2.6 Edit Product Detail

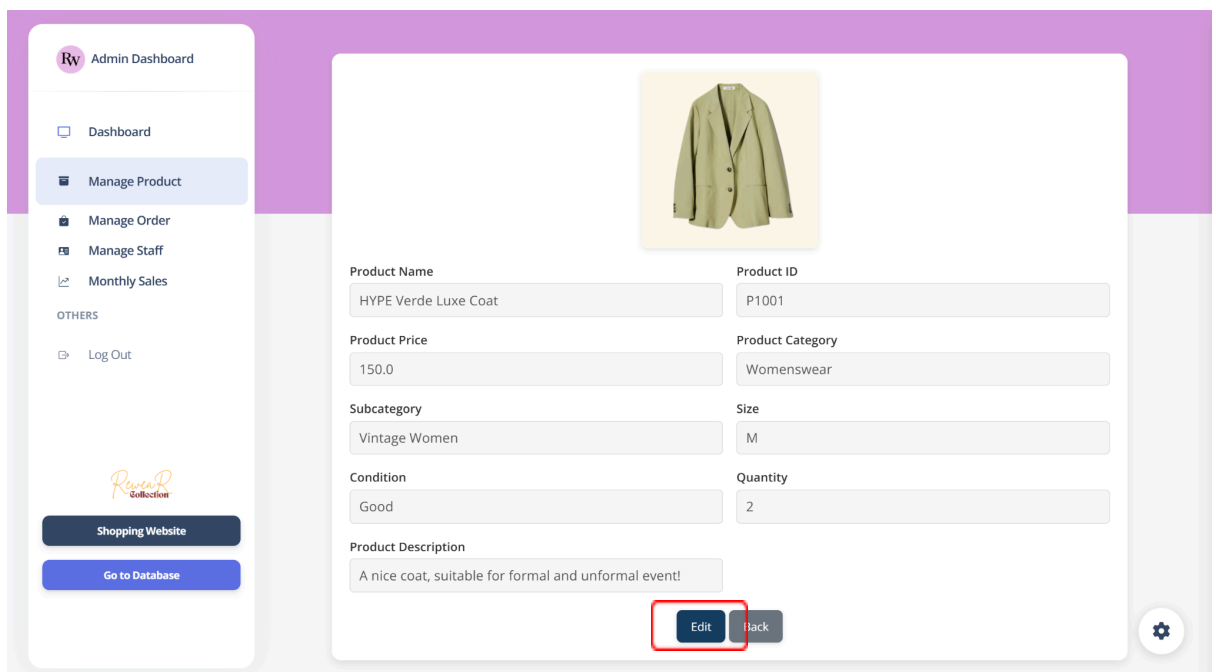

Figure 2.6 (a): Edit Button

**Description:** Click on “Edit” to modify the product detail.

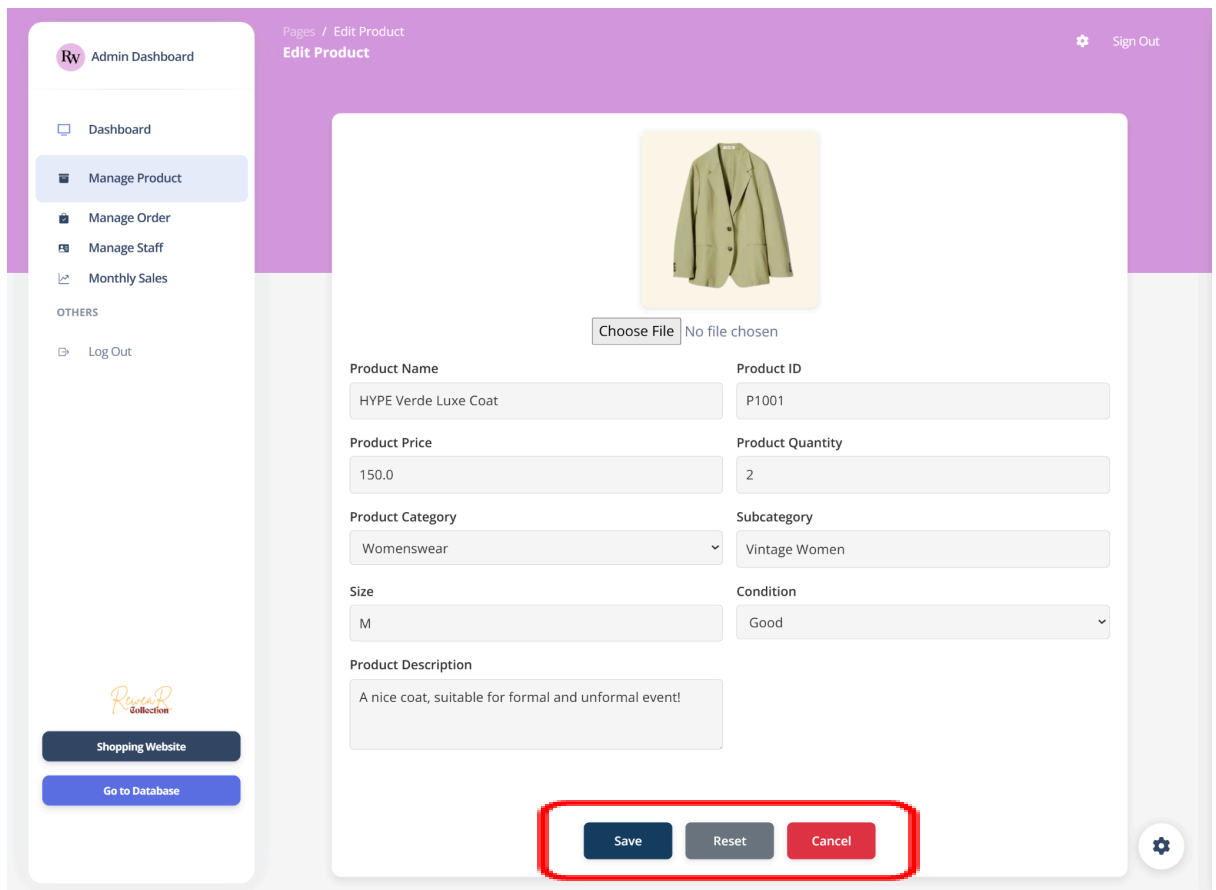

Figure 2.6 (b): Save, Reset, & Cancel Button

**Description:** Change any details as needed, then click “Save” to update the product information. Click “Reset” to clear all input fields, or “Cancel” to return to the previous page without saving changes.

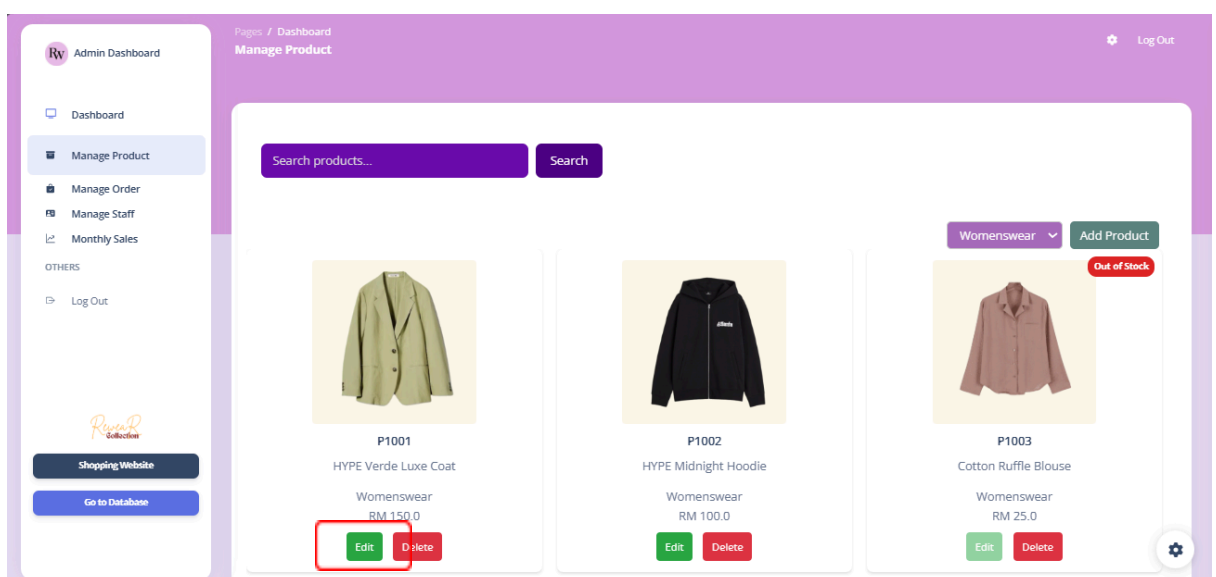

Figure 2.6 (c): Edit Button

**Additional Option:** The admin may also access the “Edit” button from the Manage Product page.

## 2.7 Delete Product

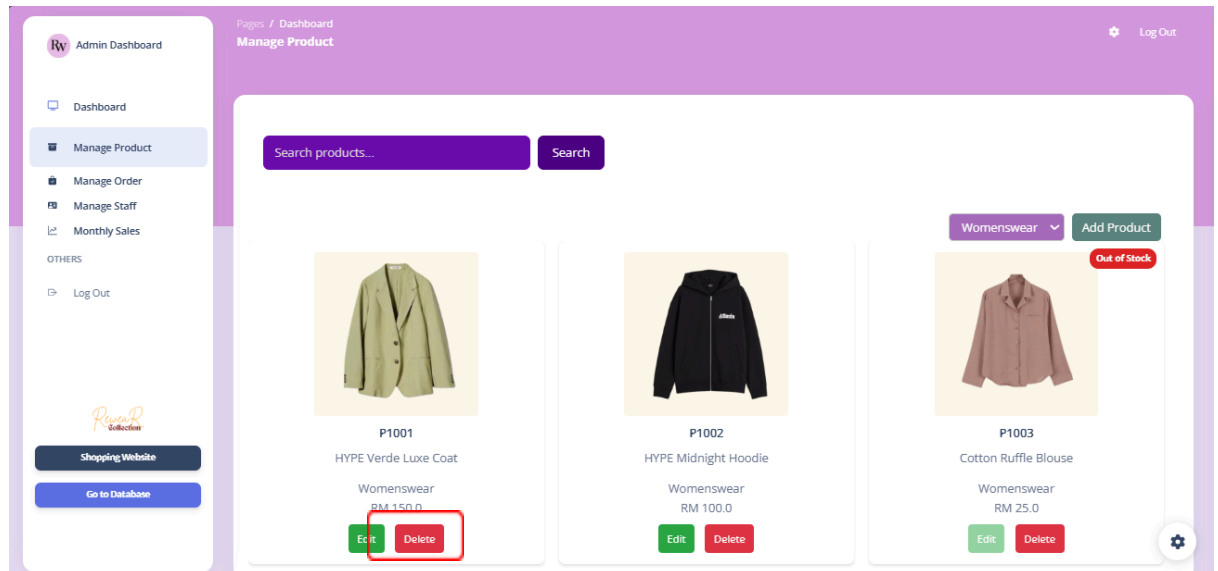

Figure 2.7 (a): Delete Button

**Description:** Click the “Delete” button next to the “Edit” button in the product list. A confirmation prompt will appear and confirm the deletion. Once confirmed, the product will be permanently removed from the listing.

## 2.8 Add New Product

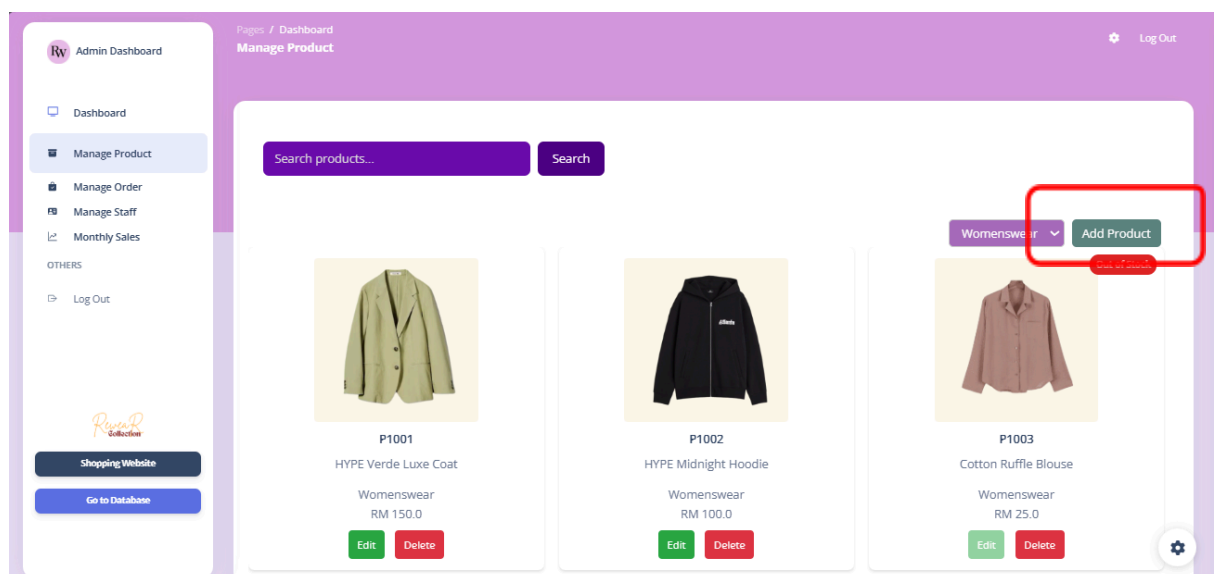

Figure 2.8 (a): Add Product Button

**Description:** Click the “Add Product” button in the “Manage Product” menu.

The image shows a web application interface for managing products. On the left is a sidebar with the following menu items: Admin Dashboard, Dashboard, Manage Product (highlighted), Manage Order, Manage Staff, Monthly Sales, OTHERS, and Log Out. At the bottom of the sidebar are two buttons: 'Shopping Website' and 'Go to Database'. The main content area is titled 'Manage Product' and contains the following form fields:

- Product Pictures:** A file upload area with a 'Choose Files' button and the text 'No file chosen'. Above it is a placeholder image of a mountain and sun.
- Product Name:** A text input field with the placeholder 'Enter Product Name'.
- Product Price (RM):** A text input field with the placeholder 'Enter Price'.
- Product Quantity:** A text input field with the placeholder 'Enter Quantity'.
- Product Category:** A dropdown menu with the placeholder 'Select Category'.
- Product Size:** A dropdown menu with a placeholder.
- Subcategory:** A text input field.
- Condition:** A dropdown menu with the placeholder 'Select'.
- Description:** A large text area with the placeholder 'Enter Product Description'.

In the top right corner of the form, there are two buttons: 'Save' (green) and 'Cancel' (red), which are highlighted by a red rectangular box. A settings gear icon is located in the bottom right corner of the form area.

Figure 2.8 (b): Save & Cancel Button

**Description:** Fill in the required details such as product name, category, subcategory, condition, size, price, quantity, description, and upload a clear image. Once completed, click “Save” to publish the product to the storefront, or “Cancel” to return to the previous page without saving changes.

## 2.14 View Staffs

The screenshot displays the 'Manage Staff' page within an admin dashboard. The sidebar on the left contains navigation links: 'Admin Dashboard', 'Dashboard', 'Manage Product', 'Manage Order', 'Manage Staff' (highlighted with a red box), 'Monthly Sales', 'OTHERS', and 'Log Out'. The main content area features a header with 'Pages / Dashboard' and 'Manage Staff', along with a 'Log Out' button. Below the header are three summary cards: 'ALL STAFF 4 Total staff members', 'NORMAL STAFF 2 Normal staff', and 'ADMIN 2 Admin / Manager'. A search bar with a 'Search' button is positioned above a table titled 'List of Staff'. The table has columns for 'STAFF ID', 'NAME', 'EMAIL', 'PHONE NUMBER', 'ROLE', and 'ACTIONS'. The 'ACTIONS' column contains 'Edit', 'View', and 'Delete' buttons for each staff member. The footer includes copyright information and links to 'Shopping Website', 'Company Story', and 'Company Contact'.

Figure 2.14 (a): Manage Staff Page

**Description:** Click on the “Manage Staff” section from the sidebar navigation menu.

## 2.15 View Staff Details

The screenshot shows the 'Manage Staff' page in the Admin Dashboard. The left sidebar contains navigation links: Dashboard, Manage Product, Manage Order, Manage Staff (selected), Monthly Sales, and Log Out. The main content area displays three summary cards: ALL STAFF (4 Total staff members), NORMAL STAFF (2 Normal staff), and ADMIN (2 Admin / Manager). Below these is a 'List of Staff' table with columns: STAFF ID, NAME, EMAIL, PHONE NUMBER, ROLE, and ACTIONS. The table lists four staff members. The 'View' button for the first staff member (S1000) is highlighted with a red box. The footer includes the ReWear Collection logo, 'Shopping Website', 'Go to Database', and copyright information.

| STAFF ID | NAME           | EMAIL            | PHONE NUMBER | ROLE  | ACTIONS                                                          |
|----------|----------------|------------------|--------------|-------|------------------------------------------------------------------|

Figure 2.15 (a): View Button

**Description:** Click on the “View” button.

The screenshot shows the 'Staff Details' page in the Admin Dashboard. The left sidebar is the same as in Figure 2.15 (a). The main content area displays a 'Further Details' form for staff member S1000. The form fields are: Staff ID (S1000), Role (Admin), First Name (Admin), Last Name (System 1), Phone Number (0123456789), IC Number (90010101111), Address (ReWear Collection HQ), Email (admin1@gmail.com), and Password (masked). At the bottom of the form, there are three buttons: Edit, Delete Staff, and Back. The 'Back' button is highlighted with a red box. The footer includes the ReWear Collection logo, 'Shopping Website', 'Go to Database', and copyright information.

Figure 2.15 (b): View Staff Detail Page

**Description:** Further detail about the staff will be displayed accurately. Click on the “Back” button to redirect back to the previous page.

## 2.16 Update Staff Detail

The screenshot shows an admin dashboard with a sidebar on the left and a main content area on the right. The sidebar contains a logo 'Rv' and 'Admin Dashboard' at the top, followed by a list of menu items: Dashboard, Manage Product, Manage Order, Manage Staff (highlighted), Monthly Sales, and a section 'OTHERS' with a Log Out link. At the bottom of the sidebar are two buttons: 'Shopping Website' and 'Go to Database'. The main content area has a header 'Pages / Staff Details' and 'Staff Details' on the left, and a 'Log Out' link on the right. The main content area displays a form titled 'Further Details' with the following fields: Staff ID (S1000), Role (Admin), First Name (Admin), Last Name (System 1), Phone Number (0123456789), IC Number (900101011111), Address (ReWear Collection HQ), Email (admin1@gmail.com), and Password (masked with asterisks). At the bottom of the form are three buttons: 'Edit' (green), 'Delete Staff' (red), and 'Back' (grey). The 'Edit' button is highlighted with a red box. A settings gear icon is located in the bottom right corner of the main content area.

## 4.0 Customer Guide

### 4.1 Dashboard Overview

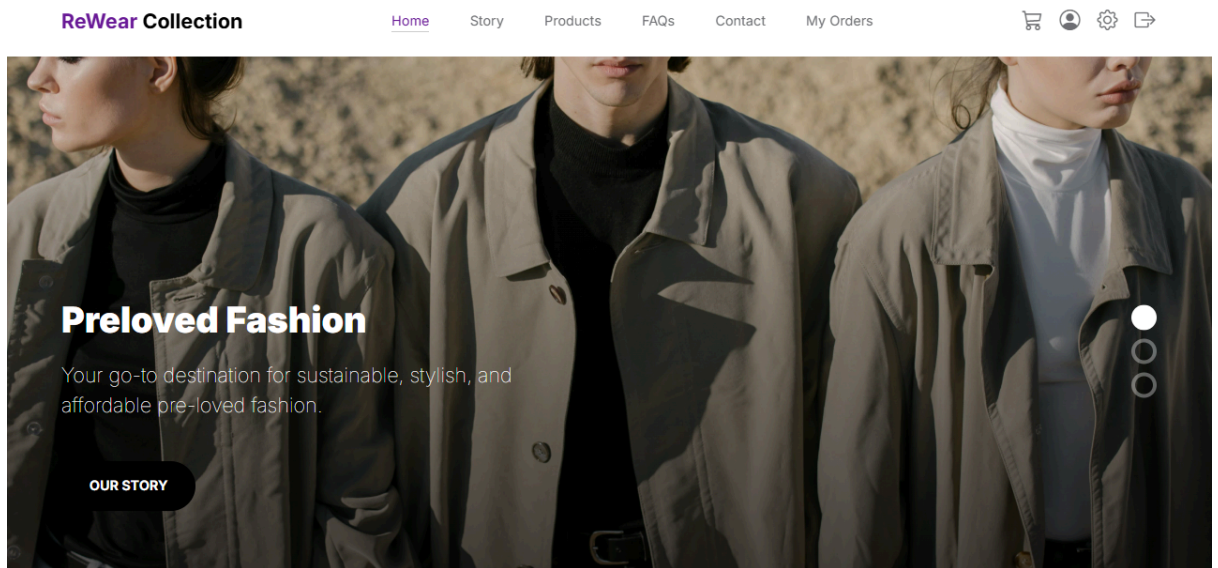

Figure 4.1 (a): Dashboard Overview of Customer

**Description:** After logging in, customers are directed to a dashboard that is identical to the default homepage, but with additional navigation options such as “My Orders”, “Cart” icon, “Profile” icon, “Settings” icon, and “Log Out” icon.

### 4.2 Browse Item by Category

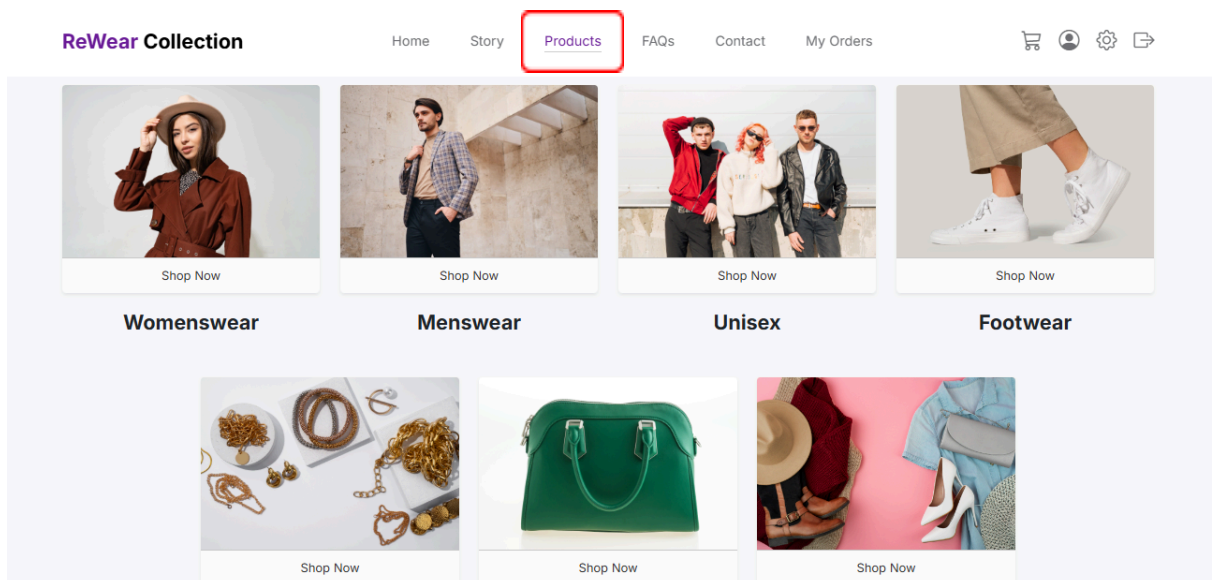

Figure 4.2 (a): Products Listing

**Description:** In the navigation bar, customers can click on “Products” to view the product listings. On that page, customers can click on any category to be directed to the selected category page.

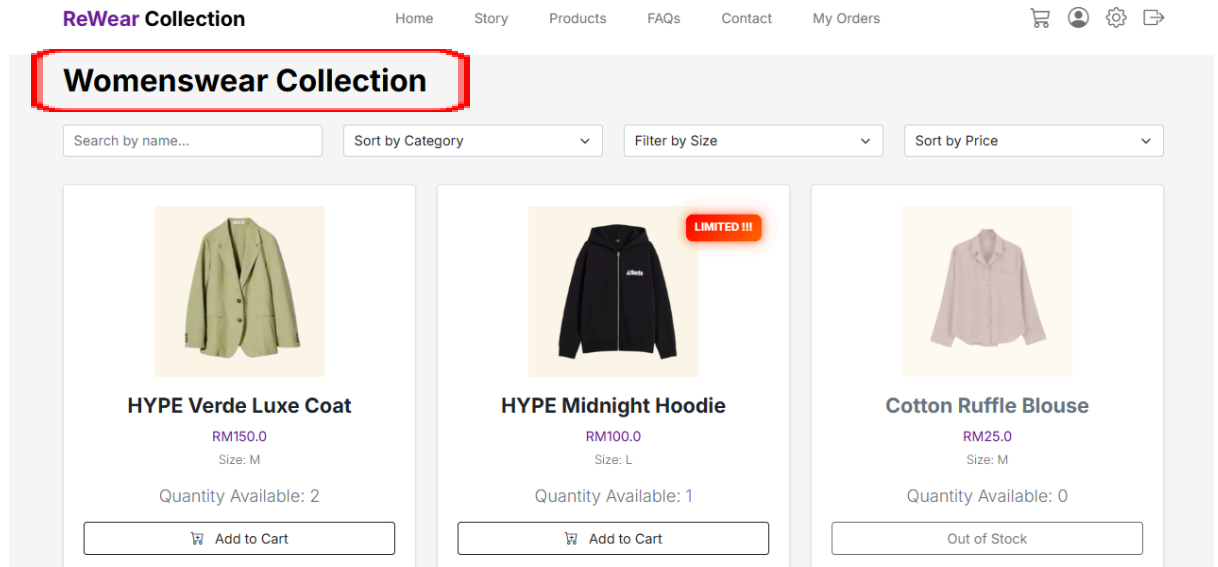

Figure 4.2 (b): Products Listing by Category — Womenswear

**Description:** Example of a page by category — as shown in the image above, this is the “Womenswear” category page.

#### 4.3 Search Product

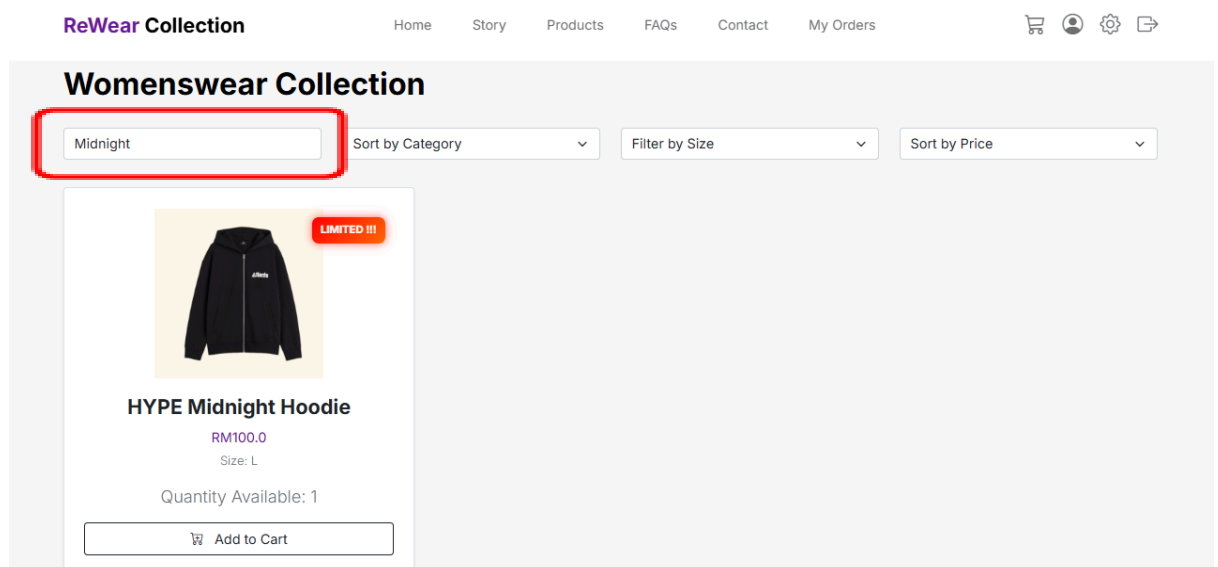

Figure 4.2 (b): Search Product by Keyword — Midnight

**Description:** Customers can search for specific items by entering keywords (e.g., product name, brand, or type) into the search bar located at the top of the page. Once entered, relevant results will be displayed based on the keyword match.

**4.4 Filter Product by Category, Size, and Price**

**Description:** Customers can filter products by category (e.g., Dress, Top, Formal Pants etc.), size, and price (e.g., Low to High, High to Low.) using the filter options available on the product listing page. This helps narrow down search results to match specific preferences.

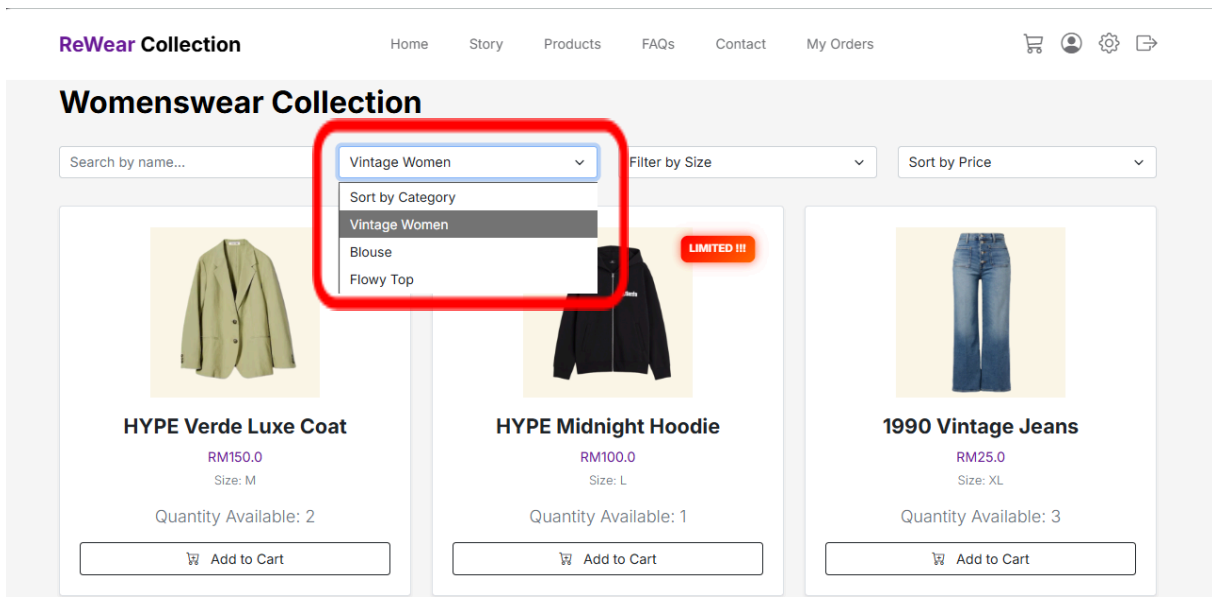

Figure 4.4 (a): Filter Product by Category — Vintage Women

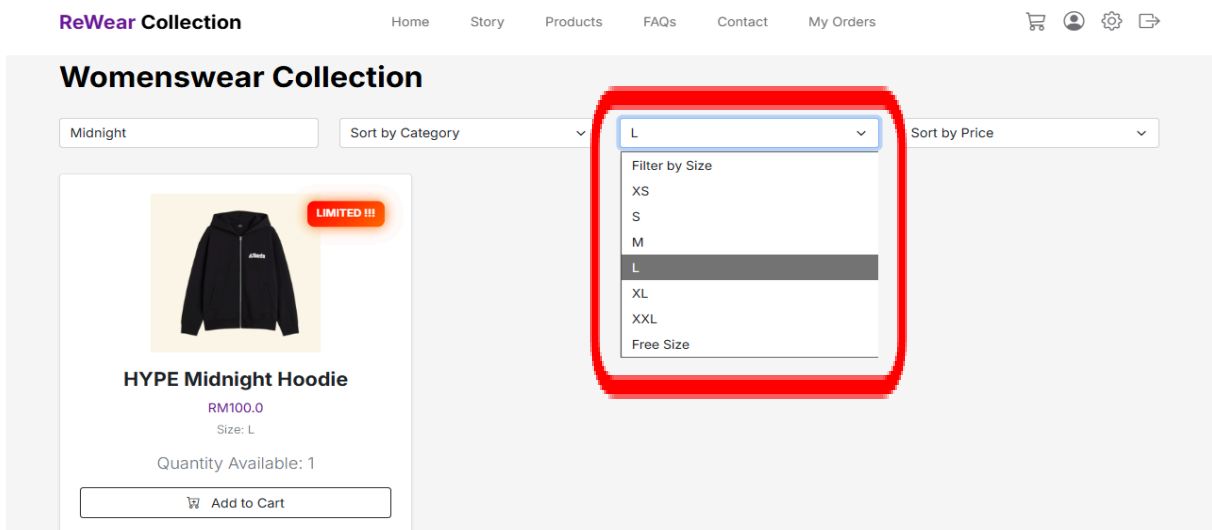

Figure 4.4 (b): Filter Product by Size — L

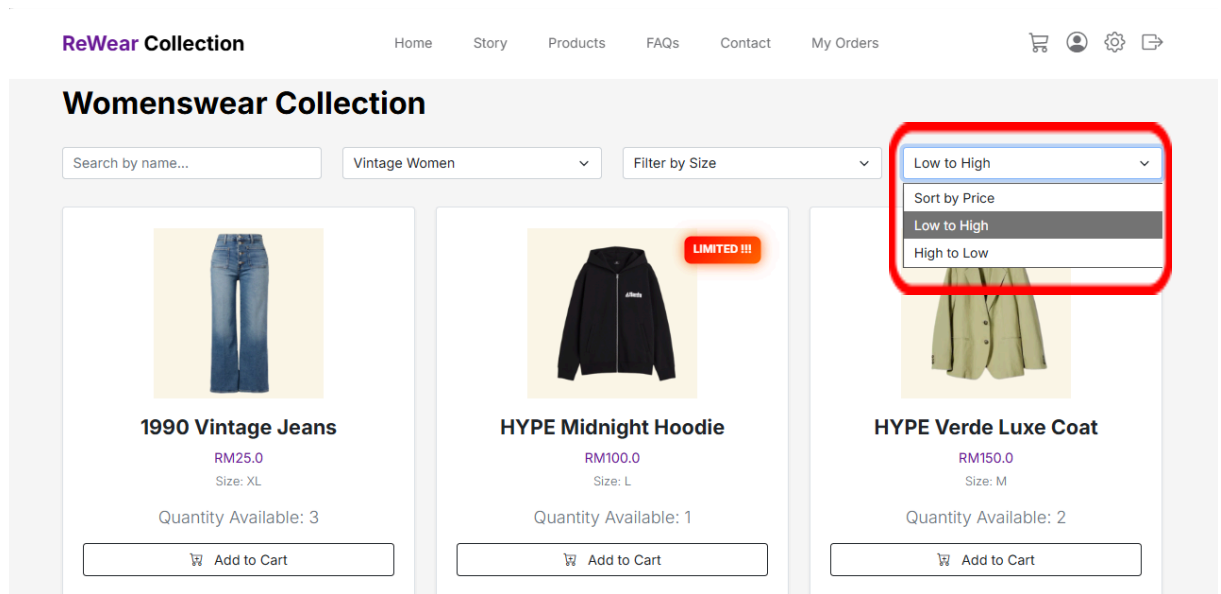

Figure 4.4 (c): Sort Product by Price — Low to High

#### 4.5 View Product Detail

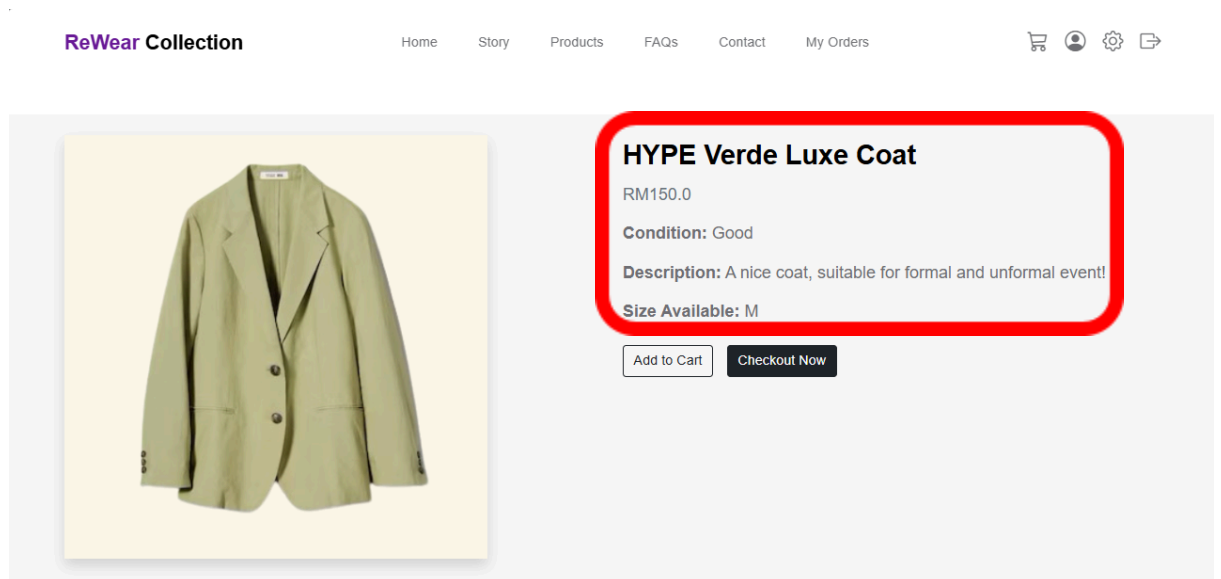

Figure 4.5 (a): Product Detail Page

**Description:** Click on the product image to view more detailed information about the item, including its description, size, price, and condition. Products that are out of stock cannot be clicked by the customers, as it is disabled completely.

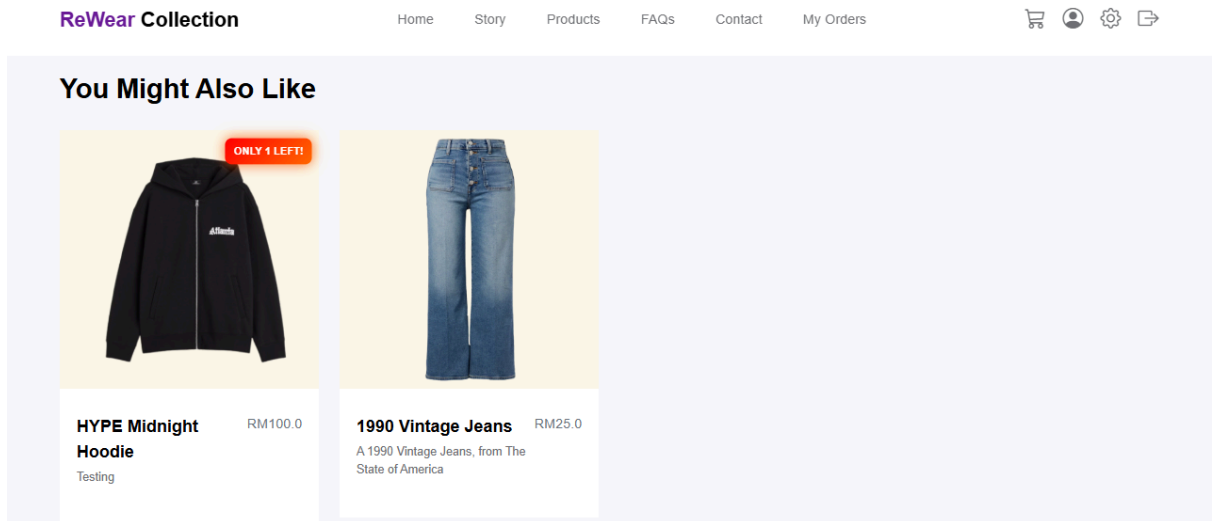

Figure 4.5 (b): Product Recommendation Section

**Additional Option:** Customers may also click on the product image by scrolling down to the recommendation part to view more detailed information about the item, including its description, size, price, and condition.

#### 4.6 Add to Cart

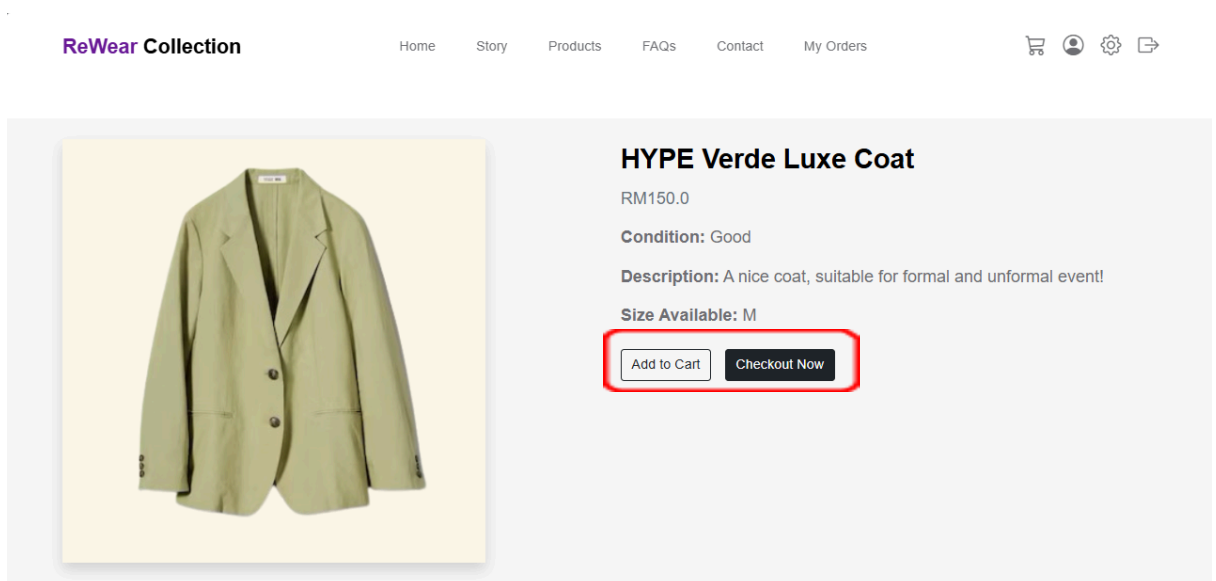

Figure 4.6 (a): Product Detail Page

**Description:** In the Product Detail page, click on “Add to Cart” or “Checkout Now” to add the product to the cart.

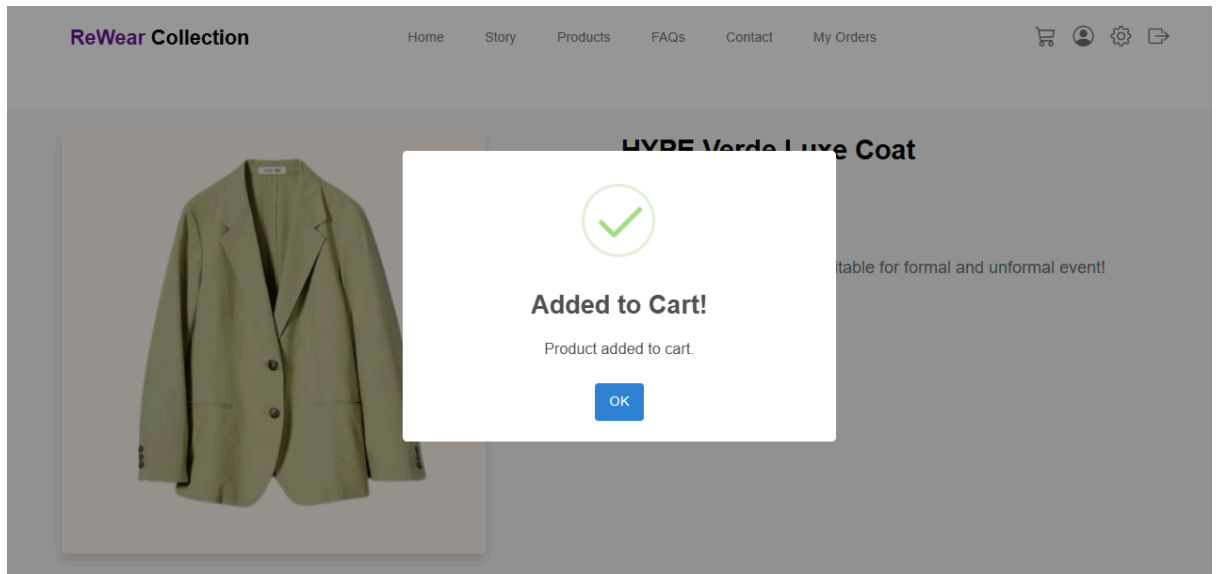

Figure 4.6 (a): Popup

**Description:** A popup will be displayed to confirm that the product has been successfully added to the cart.

**Additional Option:** The “Add to Cart” button also appears on the “Products” page and category-specific pages. Customers can use the same functionality to add items to their cart directly from these sections.

#### 4.7 View Cart

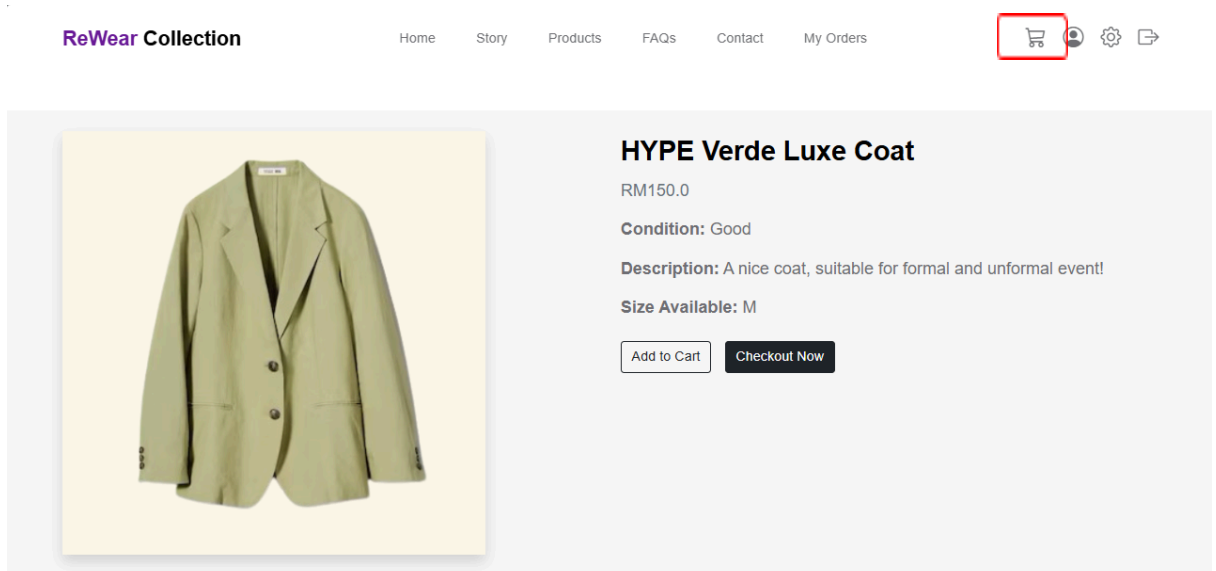

Figure 4.7 (a): Cart Icon

**Description:** Click on the “Cart” icon available on the top right of the navigation bar to go to the cart.

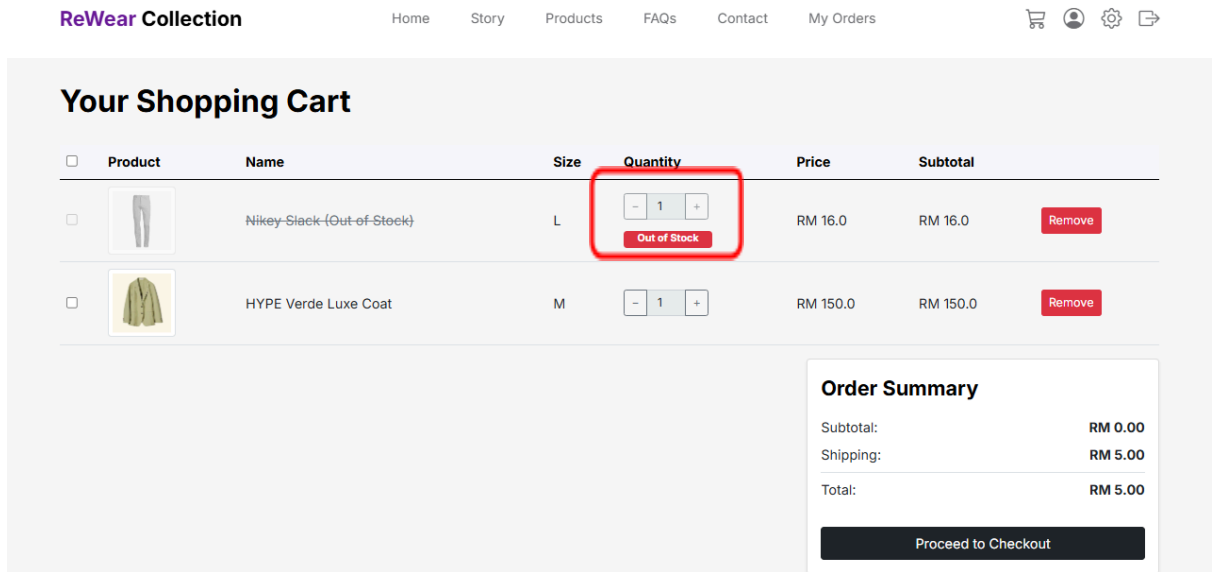

Figure 4.7 (b): Cart Page

**Description:** All products added to the cart will be available on the Cart page. Items that are out of stock will be struck out and labeled with an “Out of Stock” badge. Customers can click on the product image to view more details about the item.

#### 4.8 Adjust Quantity of Item

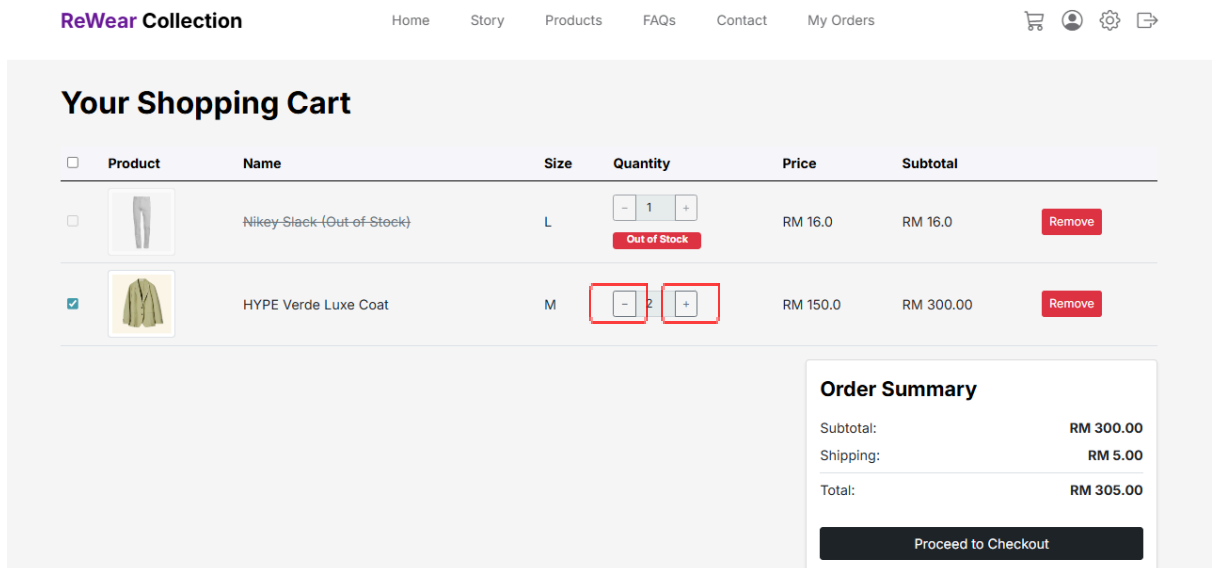

Figure 4.8 (a): Increase and Decrease Button

**Description:** Click the + or - button to increase or decrease the product quantity. Tick the product checkbox to automatically see the updated calculation in the “Order Summary” section.

## 4.9 Remove Item From Cart

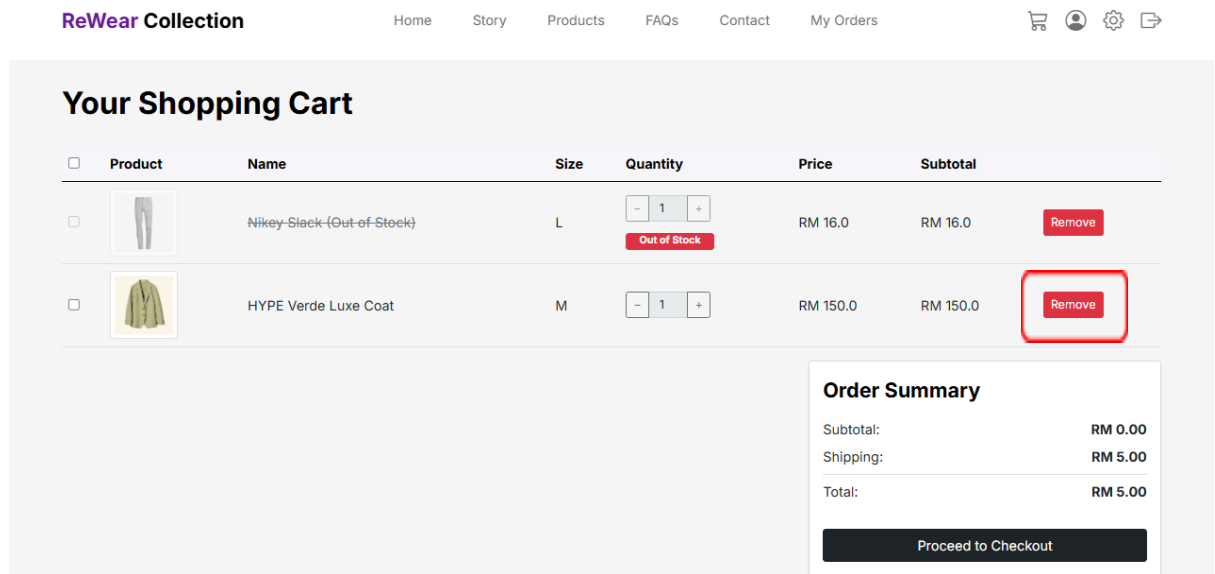

Figure 4.9 (a): Remove Button

**Description:** Click the “Remove” button to remove the product from the cart. Items that are out of stock will not be automatically removed from the customer’s cart.

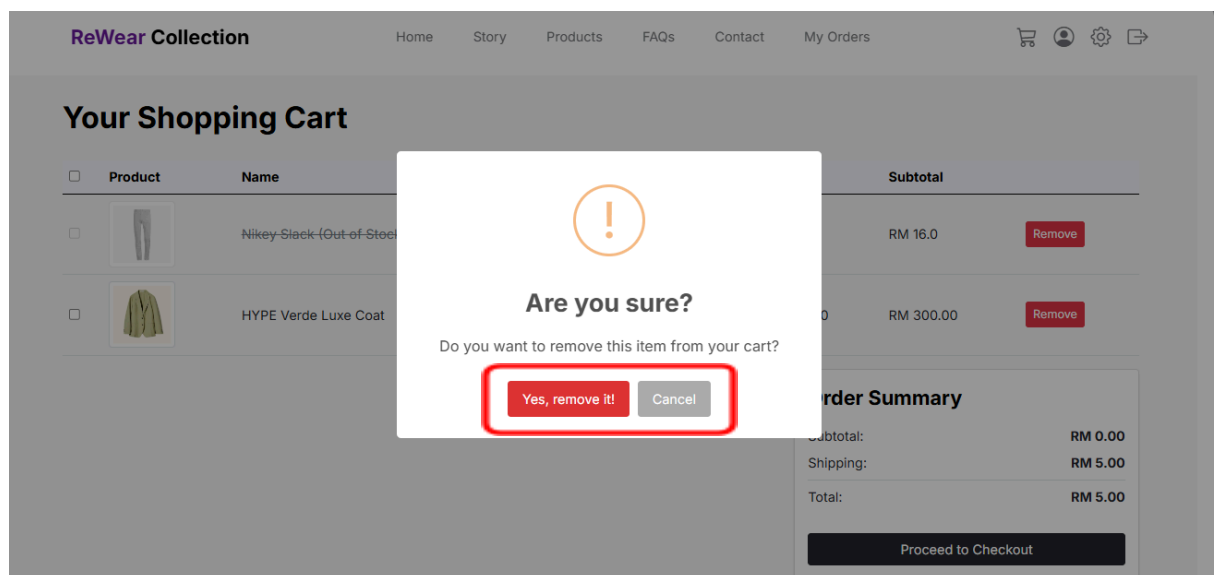

Figure 4.9 (b): Popup

**Description:** A popup will be displayed and customers may need to confirm the removal.

**Update Profile**

Figure 4.14 (b): myProfile Page

**Description:** Fill in or modify any field. The email must be valid and include the “@” symbol. The IC number is optional but limited to 12 digits with no dashes. The phone number must be a maximum of 13 digits. Click “Update Profile” to save the changes.

**Note:** Personal information will also be used as shipping information and will be automatically filled in during the checkout process. However, customers can still modify this information at checkout. The email address provided here is not used for login credentials, so customers may use any email address they prefer for order confirmation purposes only.

#### 4.15 Change Email and Password

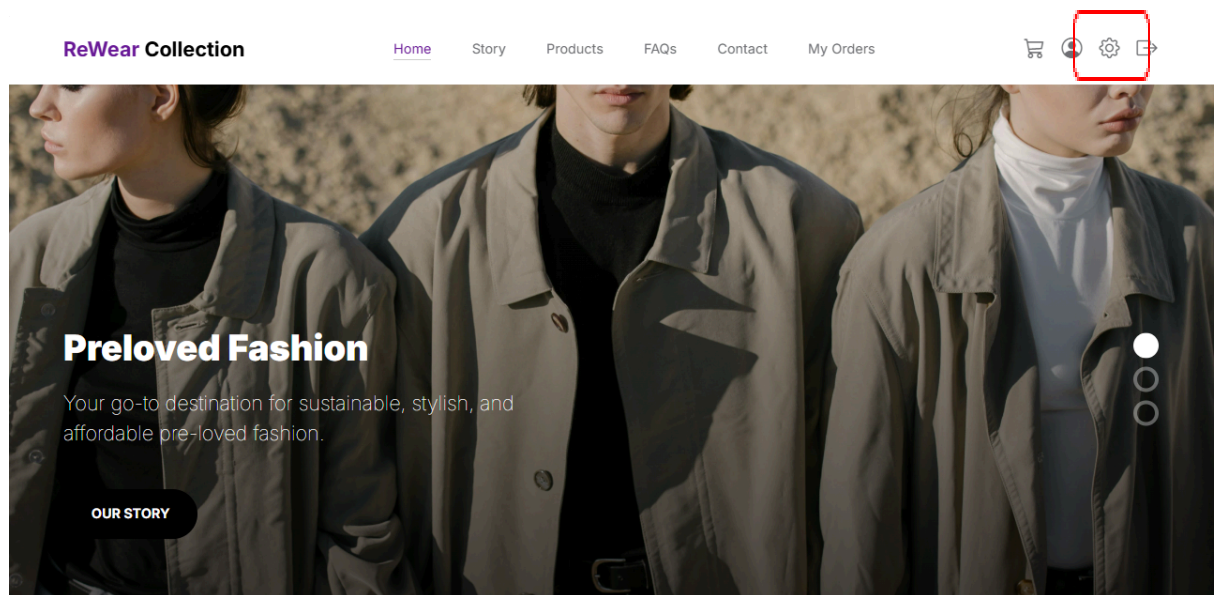

Figure 4.15 (a): Settings Icon

**Description:** Click on the “Settings” icon in the top right corner of the navigation bar to access account settings.

Update Password

Tips & Messages

- Update your login credentials anytime you like
- You do not have to update both Email and Password on the same
- Use a strong password (min 8 characters)
- Update your email regularly
- Keep credentials private

If you need help, visit our contact page.

To update your general information, visit My Profile .

Figure 4.15 (b): Account Settings Page

**Description:** Change email or password as needed. The new email must not be already registered, and must be valid and include the “@” symbol. The new password must be different from the current one and at least 8 characters long. Click “Update Email” and “Update Password” when you are done to save the changes.

**Note:** Customers do not need to change both their email and password at the same time. Changing one without the other is allowed.

#### 4.16 ReWear Customer Insights & Segmentation

Most Loved Category Picks by Our Community

| Category      | Times Purchased |
|---------------|-----------------|
| Vintage Women | 3               |
| Men Retro     | 1               |
| Sweater       | 1               |
| Cap           | 1               |
| Hoodie        | 1               |

Learn More About ReWear Transparency

Figure 4.16 (a): ReWear Analysis

**Description:** On the homepage, customers can scroll down and click on “Learn More About ReWear Transparency” to view customer insights and segmentation analysis. This section helps customers discover popular items based on previous orders. It also highlights how much ReWear contributes back to the community through the Sales Revenue & Contribution section. Customers can filter the data by Month and Year for more specific insights.

**Description:** Click on the “Log Out” icon to securely exit the account and end the session.

## 5.0 Important Constraint & Limitation

Table 5.0 (a): Constraint / Limitation

| No. | Constraint / Limitation                                                                      |
|-----|----------------------------------------------------------------------------------------------|
| 1   | Passwords must be at least 8 characters with no dashes.                                      |
| 2   | The new password cannot be the same as the current password.                                 |
| 3   | Any password confirmation must match the entered password when registering or updating.      |
| 4   | Email must be in a valid format (e.g., contains "@" symbol).                                 |
| 5   | IC number must be exactly 12 digits (numbers only, no dashes).                               |
| 6   | Phone number must be a maximum of 13 digits (numbers only, no dashes).                       |
| 7   | Products that are out of stock cannot be viewed in detail by customers.                      |
| 8   | Out-of-stock products can still be viewed by admin and staff for restocking purposes.        |
| 9   | Out-of-stock items in the cart will be struck out and marked with an "Out of Stock" badge.   |
| 10  | Product quantity in the cart cannot exceed the available stock quantity.                     |
| 11  | A product cannot be added to the cart if it's already marked as "Out of Stock."              |
| 12  | Customers must be logged in to place an order or view order history.                         |
| 13  | Admins and staff cannot place orders; only customers have checkout functionality.            |
| 14  | File uploads for product images must be in accepted formats (e.g., JPG, PNG) and size limit. |
| 15  | Admin can only delete products that are not linked to an active order.                       |
| 16  | Customers can only cancel orders if the status is Processing or Preparing.                   |
| 17  | Once order status is marked as Shipped or Completed, it cannot be canceled.                  |
| 18  | Registered emails must be unique across all user accounts.                                   |
| 19  | Customers cannot register without confirming the password correctly.                         |
| 20  | Real-time stock count updates after successful order placement.                              |
| 21  | The user session will automatically log out after 15 minutes of inactivity.                  |
| 22  | A popup warning will appear 3 minutes before automatic logout.                               |
